I resume the story of my life after my return from India with the Prince of Wales — I take fragments from my diary relating the events that seem to illustrate the mental tour of my life most prominently — The story is but a sketch of the tale and it may be — that of I have business in time prospects I shall add to what I have

already written. but of such
these work still be
enough to give my
children an outline
of the principal incidents
of their Father's life -
People often have asked
me, or have suggested
that I enjoyed the
trip to India with the
Prince of Wales!
I did enjoy many
old friends and old
places again that I
thought I had left
for ever. I was also

London 4499 3

very sensible of the great
honor confined on me by
selecting me for such a
charge - for I will know
as did others, that on
me the greatest responsibility
lasted - and that of
anything had gone wrong
for which I would have
been called to account
it would have been
simply my ruin. but
I never did fear responsibility
and never shall so
long as I presume the
~~[illegible]~~

mental constitution I
now have. I will
accept responsibility on
condition that my
advice or my instructions
are attended to but
on no other condition
I will have been
seen how much I
was called on to
exercise the faculty
of decision. and that
I had more difficulty
in doing so
I said [illegible] in [illegible]

many parts that I never
had seen and never could
have seen under other
circumstances. and all
this interested me greatly
I was most kindly and
graciously considered by H.R.H.
the unfortunately I had
to differ with him on
more than one occasion
and very companions
were all good ~~and~~ kind
and consequente with
them except one certain
occasion. I had no

[illegible] and [illegible]
the [illegible] change of [illegible]
& the [illegible] about

I am very glad that
I [illegible] and would
[illegible] [illegible] in
[illegible] and my
[illegible] enjoyment has
been in thinking that
I [illegible] to get [illegible]

an important duty
satisfactorily and to
the credit of my profession
and service.
I was now 51 years of
age. I was a Knight
Commander of the Star
of India. A Surgeon
General as to having rank
President of the Indian
Medical Board. Fellow
of the College of Physicians.
Honorary Physician to the
Queen and to the
Prince of Wales & to
the Duke of Edinburgh.

in London. and a moderate
prospect of increasing my
work as a consulting
physician especially
in the subject of tropical
disease but I was
heavily weighted by the
order & studying the free
practice in the case of
medical officers. still in
the service & the more
especially as this order
was so opt to be misconstrued
and made to apply

that I did not practice
at all — The order
was not a well devised
one it did me harm
and did me me any
good for I should
think it would all
bleed there — I should
have taken advantage
of my position &
I resident to conduct
in presence the leave
mortuary rich Ottias
or to whose it may
long — However such was

I had been rather disappointed
at not yet getting into
the Royal Society and
from all I heard from Hine
who could not but know.
it was due to some
unfavorable influence
in the Council I found
out afterwards when I
was elected who my
friend was! and I can
only say I cannot now
understand why he & all
should have objected.
But I am told this
occurs and this or something

akin to it now and
then occurring to hold
to succeed in other matters
Women tell it pass! —
I may as well mention
how it was that the
opportunity of Business
of the Medical Board
was so supplied when
I received it — because
under my predecessor
one of the best and
kindest as well as
most able of men

I left off at August 1st 1876
in my diary with the Prince
& I continue my story
from that date —
Soon after my return from
India with the Prince of Wales
the Standard Life Insurance
Office appointed me to be one
of their Medical Officers for
the West End — at a salary
of £150 pounds a year —
I had been their medical
examiner in Calcutta
for the Calcutta branch
for several years — Thus
I was a very acceptable

additions to my income which was now about as follows.

Pension £ 365
Pay as President 600
Medical Fund 300

£ 1265

Of this about £ 65 is deducted annually for the Military and Orphan Funds.

Standard £ 150
Interest on £ 6000
Oude & Rohilkand Rail. 300
Interest on Stock in Coutts hands. about 120
Interest on Rs 70000 Bank of Bengal 400

£ 2235

London 4515 (9)

Is there to be added the
resulting my private practice
which in 1875-12 up to the
time I left with the Prince
in Acts amounted to about
$ 277 — But my expenses
were very heavy. with education
and other neither.
Soon after my return I hired
a Brougham and horse the
yearly cost of which is just
about $ 200 — Thus I found
necessary for professional
work. as well as for other
work that is required. for
Bessie & myself. in going
out as well [illegible]

On the 3rd August 1876
I went to the House of
Commons and heard a
debate on the School
Board - I was introduced
by Dr Lyon Playfair - The
subject I expected to hear
was a debate on Vivisection
Cruelty to Animals bill.
I walked on the House of
Commons Terrace with Playfair
and his brother Dr Playfair
On 4th I went with Before
to Ealing and inspected
the Asylum there - there
is a duty I have to do
by 3 months.

London 4517 21

on the 5th I went again to the House of Commons. but did not hear the matter I expected it was deferred.

I occasionally attended Sir E Bayley's church in Oxford Square at this time as I liked his preaching! —

On the 9 August I heard the debate on the Cruelty to animals bill. Play fair Lowe. Lubbock. P Wyndham all Pickle well on the subject — I also attended a meeting of the Army Sanitary Commission ~~[illegible]~~ the this

is also one of my duties
and all the Sanitary
Reports and Dr Sutherlands
admirable minutes
on them come to me
on the 14th August I
went to Barham near
Canterbury to see Mrs
Simon Martin. She was
one of the Lucknow Ladies
I returned to town the
same evening.
The three younger children
with their excellent nurse
Margaret Ross. Started

for Edinburgh and Emmer
-avonside this missing
on the 15 Little Spens. Joe
Jim and Harry went to
Folkestone. Schell and
Fanny Armstrong came
at Folkestone then.
I have noted that the weather
was very hot 80° in the shade

The weather continued
very hot for some days. —
I have noted that about
this time I was writing
a paper on Filaria for
the Lancet.
On 19th August I went
to Southsea to pay a visit
to my old friend Mrs
Cannon (May Shaw).
I remained there next
day bathed in the sea
and walked on the shore
Returned to town on
Sunday evening 20 August

21 August. Bessie and I went over the Bible Society's house in Queen Victoria St and saw all their stores some very interesting old bibles. — we went to St Paul's and saw the monuments also the National Gallery and its new rooms — it will now compare well with any Gallery in Europe on the 22d I had a consultation at Croydon on the case of a Lady Mr Leroy. and I received a fee of Eighty Guineas — Lily Lewis came to stay with us this day

On 23d August I went
to Milford to see Mrs
Greville. I found these
Probyns and the two
native Officers unoppo-
sing and Afzal Khan
who came home with us
we were to have gone to
Hazelmere to see Mr
Tennyson. but a telegram
came telling Probyn
to go over to Aldershot to
meet the Duke of Teck
Princess Mary so
I drove over with him

London

next day Lady P. Wbyn
Mrs Greville & the two beautiful
Officers — we saw the Military
games and a hurlpigging
match by the Hussars
Dined back to Godalming
and thence returned to town
The Duke & Duchess of Teck
were present at the games
The Country between Godalming
& Aldershot looked lovely.
25 Called at Marlborough
House — Prince Lily and I
went to Windsor — went over
the Library & rooms of the
Castle. — State apartments

St George's Chapel. and came back to dinner in the Emmy I have noted that the great heat had abated. On the 2d Sept. I find that I went to Brighton to see Mr Elliott in consultation with her medical man. I then went on to Hollingbire Hastings. ~~to meet the Lewis~~ en route for Tollentone. met the Lewis at the Station - arrived at Tollentone in the Emmy found hetha. the boys and arrangings well

London 4525 29

returned to London next day. 3? with Mr Woodroffe who had also been down there —

On the 4th I went to Coutts bank to ask if I could send our plate there. probably whilst we are away! —

On the 5th Septr 1876 - Bessie and I left Kings Cross - Jessie Spens with us for Edinburgh - arrived at 8 am next morning - and went to Bessie Arnot Liggie, Randolph Cliff - we visited several old friends in Edinburgh - and I went to

renew my acquaintance
with the Royal Society
which I have been a
Fellow since 1859! —
On 7th I had a slight
return of my Gastric pain
that afternoon we went
to Muirhouse side - found
the three children all
very well - All the boys
are at Sotherstone.
Next day we went to
Bridge Castle to see Lady
Isabella. I found Mrs Isabella
my quondam patient
much better! - My friend

Muiravonside that night
went out 2 abbs shooting
next day — and also on
Monday. Tuesday —
on 13. I felt unwell
and my son was very ill
with a very severe attack
of the Gastric pain — I was
quite confined to bed or
had to inhale much
Chloroform before I got
any rest — Before would
to Lady Hopetoun to
tell her that I should be
quite unable to go and stay
with her as intended

I think this was one of
the very worst attacks
I ever had - it completely
prostrated me - and the
suffering at the time was
intense - the steady restarts
the result of Chloroform
that followed was very
distressing! — Dear Bessie
and Mr Stirling were
so good to me!
All the 15 I was bad
on 16 - I was improving
but still very poorly
still kept to my room
on 17th I was able to get
down stairs but - very weak
and feeling depressed -

on the 18th Sept I left the
Stirlings for Kinross. the same
day Bessie returned to London
with the children I arrived
at Kinross at about noon.
Mr G. Henderson met me at
the station and we drove up
to his house Turfhills -
In the afternoon we strolled
out and got a brace of partridges
2 hares and 3 rabbits. It
was a lovely day. and I was
already beginning to feel
much better and stronger
On the 19th G. Henderson and
I went out with Simon Fraser

the keeper. and 3 setters
we shot over a farm called
Bolado - we got 7½ brace
of partridges. 6 Hares and
2 Rabbits - 23 head.
I was feeling better but
still weak. tho' I walked
pretty well. - W Henderson
joined us in the Summer
from Linlithgow - weather
fine. The light and shade
on the Ochilo and on
Ben-Arty overhanging
Loch Lenan - which was
within a mile of us. beautiful
on the 2[illegible]th Septr. Mr & Mrs
Henderson and I shot

3 rabbits – we lunched
with Mrs Flockhart – Handsome
Sister – It is her place –
Mr Dawson and two Miss
Anderson dined at Turfhills
one of the girls sang & cobble
songs very prettily – I had a
heavy tumble off a stone
wall near Anacroich. a
stone fell & brought me down
on my back – I bruised my
right hip but it did me
no real injury & the pain
soon passed – 60 Head to day

Thursday 21 Septr — 1876
W Henderson returned to
Lincoln Hyde where he knew
and is Procurator fiscal
Mr. H. and I went out Rabbit
Shooting — we only got 14
rabbits — and on the way
home in the Summer a
partridge and a wood pigeon
making 16 head.
It was a fine day, quite
warm — and enjoyable
enough! —

22. — We went to Westfield
for J. Dawson place. and
had a long day on his
grounds & we dined there
we got — 32 Partridges

I resumed the usual routine
of daily work and there
is nothing particular to
note during some days
after my return from Scotland
I find that on the 13th Oct
I wrote to the Prince of Wales
about young Rose of the
10th Hussars - who was ill
and had a very kind
reply direct from H.R.H
on the 15 Oct my friend
Robert Stewart of St J. Wythe

and Co told me that they
were thinking of establishing
a house in Bombay
and that perhaps Bob
might be sent to form
it by & bye - that he was
doing well in the
London office is steady
& reliable

17 Oct - I wrote to the
Mily Sec S.O. asking
him to bring Dr Parkes'
services to the notice of the

Secy of State; he is
about to leave my board
and suggesting that Dr
Pattrodge should be
appointed to succeed
him - Had a letter
from the Prince of Wales
asking me to call and
see him at Marlborough
House.
18th Oct Called to see H.R.H.
and told him about
Rose who had come
home with whitest bad
eye! —

on 9th November 1876
I fried I was attacked in
the morning early with
another of my painful
stomach affections. I
was in great suffering
all day - Dear Bessie
nursing me and giving
me Chloroform.
All the 10 and 11th confined
to bed with intense suffering
obliged to take Chloroform
in bed all 12th also
quite prostrated by the
suffering - Dear Bessie

with me all day. I
was very weak. but the
pain diminished. and
able to take a little
nourishment. — The
Nausea dreadful
and still much darker
pain — Brunton and
Pollock both said the
Calomel gave me
relief — Dake took a
large quantity of Opium
at Pollock's suggestion
Ether was used instead
of Chloroform. but it made

deadly sick.

13 ~~Oct~~ Nov. Rather better but still confined to my room — Pollock & Brunshire attending me — very weak but better.

14 ~~Oct~~ Nov. Tuesday. went to my India Board but feeling very weak. Partridge made his first official appearance and we had some difficult cases to decide. One of my official who in account of intemperance we were unable to certify

much pressure was
put on us. but we could
not do it — I sent me
a report on C Macmillan
book. I do not hold his
views. but they are
carefully expounded and
deserve all consideration
Recommended that
copies should be taken
for India — my report
is to be bound in my
official letter book. —
I am very shaky
and weak after my
attack, half doubled up
by residual pain

Norfolk

on 16 Nov. Before and
I went to pay the Borlaces
a visit at Stanfield Hall
Wymondham Norfolk
arrived there in time
for dinner —
It is a fine old Elizabethan
house with a moat —
and is interesting as having
been the rite of the
murder of Mr Jeremy
by Rush some years
ago! Borlaces, an old
Indian friend of Richard

18 Nov. 76 – Mild damp
day – Boileau went into
Norwich – Col: Campbell
and I went out – we got
one mottled Pheasant
(mine) and 7 Partridges
the soil is very damp
and clayey!
Sunday. We went to church
at Kettlingham. Met
Sir F. & Lady Boileau
& Mr Montgomery – We
walked home
I am gradually regaining
my strength after my
attack but am still
very weak

21 Nov. Bessie. Minnie
Boleau. Boleau and I
drove into Norwich. the
it was wet. — Met Lord
and Lady Suffield as
the Club. where we
lunched. — went to the
drill hall to see Lord
Suffield installed as
Provincial Grand Master
of Masons. by H.R.H. the
Prince of Wales. I appeared
in a Master Masons
apron. which Suffield
best use — we drove
back to dinner and left
for London by 10-30 train

we reached home at 4 a.m. the streets of London looked quite deserted we scarcely saw a soul from Liverpool St. till we got home

21 - Lord Salisbury has gone to Constantinople on Eastern Question affairs!

On 26th Nov. I had another Gastric attack I felt it coming on when I got up so went out into the park to try & walk it off but could not & came back in great pain

obliged to be tied in
took calomel and
opium — and opiates
at night —
Better but weak next
day — But did my
work. I went to the
standard office and
examined some
candidates
On the 29th Nov. I heard
from Messrs Grindlay &
co. my agents that
I have got my annuity
of £300 a year now

London 4567 72

is to commence from
Jany 1877. It is just
26 years and 3 months
since I entered the Indian

damages. I reported
on the woman who
really seems to have
sustained some permanent
injury —
I am better —
on the 6th December
I was 52 years of age

my health somewhat
better – but I have been
much shaken by the Cattle
attacks – my hair is getting
very grey now! ——
I note that I went on the
7th to see the Cattle Show
at Islington. – I have
always been much interested
in animals & such shows
interest me greatly!
I find that I attended a
meeting of the Leprosy

20. went to Barham Kent
to pay a visit to Simon Martin
His dog cart met me at the
station and drove me and
the Williams to the Coverts
where we were to shoot —
we met a party there.
It rained nearly all day
but we got 98 Pheasants
14 hares and 20 rabbits
It cleared up a little in
the afternoon — the Coverts
were curious composed of
young trees for hop poles.
These are cut every 11 years
and are a very thick cover
There were some very hot
corners — I nearly had an accident

my gun went off when
loading - something wrong
with the pin - I got another
from Major Bury - we saw
a few woodcock but none
were killed - there were
10 or 12 guns. my old
friend Cunliffe Martin
was there. —
21 - Pettiney rain but
we went out - and got
40 Pheasants
2 woodcocks
5 Hares
7 Rabbits
Martins & I drove over to
Broome hall to dinner
with the Olivers on one hoot

The house is a fine old building
belonging to an old family
of Barronets. — The present
owner is an old man, very
poor and lives in a single
room I am told, we the
village near his ancestral
house. He has no son
and the next heir is I hear
unbeck — The property
is heavily encumbered —
the owner is dependent
on the kindness of friends
I remind my sad. and me

wondered that the old man could remain where he is under the circumstances the house & shooting are let to our friend Scott who is a friend of Martins the owners name is Otendin. — There are some fine pictures and a magnificent drawing room. It was too dark to see the exterior of the house we drove over in the dark and pouring rain.

all the seven children
now sit down with us
at table. They look
a goodly company - Far
more on the seeming
than the naming
They all look well.
The papers give alarming
accounts of the spread
of small pox in London
as an epidemic

24 Dec Heavy snow last night
weather became after this fast
and rain. — I am writing out my
Indian journal. —

So ended the year 1876.
It had been an eventful year
for me. I completed the
Indian journey with the Prince
of Wales — and had been made
a Knight of the Star of India.
I resumed my consulting
practice after my return.
It had, of course, been materially
interrupted by my absence
which was a necessary part

of view was a considerable
loss - but it was a very
honourable public duty
and I was very glad to
perform it - my great fear
to have succeeded in bringing
all my party home alive
and well -
I find that from the
time of my return in
May - up to Dec - that
I made by consultation fees
£ 298 - 13 - and that -
did not include £ 1000

London 4583 88

fees declined - or returned
with cases of those who
could not - in my opinion
approve to grant them, or for
other reasons. —
The order preventing me
from practising in the case
of Indian Employees tells
heavily. because not
being properly understood
or perhaps misconstrued
it is made by implication
to extend to many with
whom it has really no
concern

my health had improved
tho I had suffered sorely
at times from the gastric
attacks. – the renal
symptoms I hoped were
in abeyance. So I worked
on more hopefully – tho
more or less with the
feeling of uncertainty
that I was perhaps the
subject of some obscure
disease – In some respects
my capacity for work
is almost as good as
ever. but I am not equal
to so much strain as would
be the case

I find that this year the following were my bags at Tinsfield & St Mary's Hill

Science has its petty patronage
& heart burnings like other
callings - I have got on
all in good time -
some think this the
greatest honor we can
obtain - I am not so sure
of it - for I see so many
good men kept out. And
I cannot regard it as
the unquestioned distinction
it might to be. I suppose
they admitted me
partly on account of

professional work
in India - partly on
account of researches
on Snake poison.
and partly - on account
of my position - in
head of a Dept. - and
because I had been
of use to Science.
Thanks was mainly
instrumental - I believe,
in getting me in - and

I went on alone with the
the keepers & pointers and
shot 2 brace of Grouse
and a Snipe. The
wind was high and the
rain spoiled the shooting
and sheep had been
driven over the Ground.
The Grouse had been
so much disturbed
that I only got six shots
at them & got 4 birds
and a Snipe. Mr Carnegie

arrived for dinner
Lord & Lady Dudley
were here last year &
Septr 1. Lord S. Mr
Carnegie of Thurso and
I went out to day at
10 – a fine day – he
had a long walk over
the moor. Birds very
scarce and wild – he
shot only 6½ brace
and a hare hour – we
killed an adder & I shewed
my companions the gland
and poisonfangs –

10 Octr 1877 - I left the Isle at 9.30 am - Capn Macdonald went with me as far as Carlisle. I reached home at 9 P.M. Dear Bessie and me at Saint Pancras found all well. The house - the Granville place has been done up during my absence! — my trip cost me about £41 - I find that we got 555 head of game in the partner I have been shooting with!

12 Octr - I went with Joe to Cambridge and saw him settled in his rooms in the Masters Court. Trinity College

Deposited £40 for him
at Mortlacke bank - called
on the College to see Mr Tuckle
and introduced Joe to Professor
Humphrey
He came down to the train
to see me off and I left
him looking rather
disconsolate. poor boy!

a slight improvement on
1876 - but it is very slow
work - and there can be
no doubt that I am
heavily weighted by the
Secy of State & all - above
not attending Indian
officials - for it not only
applies to them but it by
implication is made to
apply to others also and
as I do only Physician work
if leaves me comparatively
little

on the whole, the I think
my position is improving
and my work increasing.
I am not in a very good
locality but it is so difficult
to get a house. a to find
of the one occupied, that
a move is not practicable
for I dare not risk much
of my little capital — as
my income is barely enough
now to meet the many
demands made on it
and if I were to break down
or die — what would become
of Bessie the Children

Education is my expense
and they see in the full
tide of it now! I must
just be patient and
wait, doing my best
meanwhile.
My professional position
I think is improving. I
am getting more known
tho my position is imperfectly
understood — I fear there
is a great tendency to look
on me as a retired Indian
well off & not caring
for work — & that my
official position is one
that does not mean practice

London 4743 249

or by some that I do not
wish to practice, or by those
that I am not allowed to do
so — I can only hope that
time will amend all
this! I attend the
Societies — speak occasionally
at our home in any subject
that I know — and think
I can speak on with
advantage — and but for
a reconstituting that I
cannot — shake off altogether
I could sometimes speak
fairly well — at all events
I can generally get people to listen

to me attentively! —
I have also made some
contributions to the Medical
and Scientific Journals —
As I have said I am in better
health — I think the
Albuminuria has diminished
if not disappeared. —
the great trouble caused
by my dear Mrs in
India is asking How
long it has taken to be
it — I suppose I am
naturally a nervous
disposition w. temperament
and I think it is one of
the results of long Indian
life

and the same illness I
had — but I am apt to be
seized with a nervous
condition especially if I
am excited. or have to
speak — and I feel of mind
if I try to write for as
such times I have the
greatest difficulty in so
coordinating the muscles
of my hand and arm
as to sign my name.
On the night when I had
to go up to sign my name
in the Royal Societies
Album

When I was admitted
I could hardly form the
letters: I was just like
a person in the Cr of
stage of an ape indeed
the Condition was very
like that! —
I found I got a little
heavier over 13 stone
and also got they my

is less thick as well
my darking is also

Vote of thanks to Med'l
Officer – I spoke. –
Saw a case in consultation
with my old friend Dr
Mercer of Calcutta
Gave my lecture at the
Society of Arts to a crowded
audience. On deaths

London 4765 ~~1878~~ 13

in India - by wild animals
and venomous snakes
Sir G. Campbell was
in the Chair. There
was an interesting dis-
-cussion. Frank Buckland
was amusing & many
spoke - Lady Mayo
and many of very
friends were there
The Prince of Wales
would have come
but he had to go out
of town. The lecture
seemed to excite considerable
interest - I not only

describe the deaths
but I also gave me
account of the
creatures that caused
the deaths.
I may as well
say here, that some
time later. The
Council of the Society
gave me a silver
medal for this paper
which I received, along
with others who also had
medals. at a meeting

Feby 2. - Before went to Wellington to see Harry - wrote out a need form for cholera report from India - for Army Sanitary Commission of which I am a member.

Feby 4. I note that I called on my old friend Mr Buxton and also on my old friends the Buxtons who are living at Shepherds bush. They were so kind to my dear old Father

and the boys!
we chund with Sir J
Lady Paget to meet
Dr & Mrs Priestly. Dr
Acland of Oxford.
Mr & Mrs Teale and
Mr & Mrs Lister.
Lister is now Professor
of Surgery at Kings
College in London. He
gave up his Chair
in Edinburgh to
come here.
I attend my Medical Head
Board regularly. Partridge

He returns to Indian
next months & was
looking out for his
successor on the Board
I must have the best
man I can get.

6. Feb. I attend at
the Standard Life
Assurance Office in
Pall Mall every
wednesday to examine
candidates at this
West-end branch.
For this I receive £150
a year

I was then examined
for the house in Calcutta
and they offered it to
me again - as I think
I may have before
said - when I came
to live in London -
a Mr Freeman had
held it - Mr O'Hagan
the Secretary assured
me that Mr Freeman
had ceased to hold
the appts - before they
offered it to me

London ~~1878~~ 4771 19

Before used I went to a party at Lady Rawlinsons to meet Stanley the African explorer.—
Asked the Duke of Connaught to preside at the annual festival meeting of the Epsom College — but H.R.H. was engaged.

7.25. The Pope Pio. nono died to day aged 86. after a pontificate of 32 years

The longest yet recorded
How many associations
are connected in my
mind - with Pia. Nono
& former days - 1848-49

8 Feb. — The Hunters Shillings and Nat Spens dined with us Poor Nat he was afterwards cut to pieces by Afghans during the Afghan war gallantly resisting an attack by a large body of Afghans near the Cabul! —

9th Feby. I received a letter from my Cousin Rayner Dickson from Melbourne dated 24th December last

telling me of the death
of my dear Sister Annie
Shaw — said to be of
Rheumatic neuralgia,
she died on 22 Dec
1877 — in Melbourne
she has left three
daughters and two
sons — & her husband
none of whom I had
been seen — I loved
her dearly she was a
noble character as
she had shewn in
her reverses. When

London 4775 ~~1878~~ 23

her husband lost his
money — she set up a
school and worked of
with great success — now
in the least forfeiting
her social position.
I have never quite
understood the history
of her illness and the
cause of death but
I have no doubt
worry and anxiety —
had something to say to it
the most have
suffered dreadfully about

poor Edward — I little
thought she would
follow him so soon!
She was much
beloved and respected
her character was
in all respects a
most loveable one.
It had been only
the looking forward to
hopes that I might
see her again some
day. Alas like many
others to be disappointed

London ~~1870~~ 1777 25

I had been at a dinner of the Prince of Wales - H.R.H. and the Duke of Cambridge are always very kind they speak and shake hands as I pass. —

10 - I rec'd that Katharine Hayes - a daughter of my old Lucknow friends - was with us at this time and that she told me poor Mrs Hayes her mother was in poor health she had never

recovered from the
shock and suffering
of the mutiny the
deaths of poor
Hayes & the Siege.

11 - I went down to
Reigate to see Lord
Nigel Kennedy - who
was dangerous ill
and who died not
long after. He was
a schoolfellow - i.e.
he came to Mr
Wallace's at Dalrymple

just at Sleft-yl.
when I was a boy of 13 or
14 —— Fanny Armstrong
was living at Redhill
close to Reigate & went to
see her.
The Turks refuse to

19 Meeting of Local Board to discuss certain Sanitary question

20. Jesse is 17 to day. I wrote to Dr Sex Blake to say I must take him away from Rugby soon as he is going on to the army.

21 — Brunton and I did some experiments, in Edra pursuing the Bartholomew — see mere comparing Edra

Dabira poison — but
made a careful examn
of the blood of rabbits
so poisoned — but no
microscopical change
was observed.

22. Fanny Armstrong
and Jack came to
stay with us — took
Fanny to the old Masters
Lecture on Migratives
at Soy of Arts — discussion
followed.

I lectured to the children
I do so on Tuesday & Friday
on Elementary Physical Geography

London ~~1678~~ 1785 33

24 Feb. — I have noted that on this Sunday I went with F. Amelia to Mr Harvey's church and that he preached on the new Pope Leo XIII. Went with F. A. to the Godly Gardens! —

Jane Burnley is with us pequently she is a young lady who was under Mrs Woodruffe's care. a Grandmother of Mr F. Kelly — and a very sweet good girl. I became her trustee when she was of age. for her settlement.

25 I have dined to day at the College of Physicians

club – to which those
just been elected. It is
a very old club and
consists of only 22 members
I was elected at home
~~[illegible]~~ [illegible]: [illegible]! It is
unusual & I am told by
Deanie – who evidently
had something to do
with proposing me – for
any one to get in at
first: or without one
black ball. The annual
subscription is about
£ 8 8 – ~~9 0~~ 8 dinner
in the year held at

London ~~1878~~ 1787 35

the Burlington Club.
Sir J. Watson.
Sir G. Burrows
2 Dec Fane
Dr R. Bennett. Men
were members - it is
considered a distinction
to belong to this Club - as
only old as well
known Physicians are
elected to it —
Dr Bennett told me that
he had heard I was to be
made LL.D. of Edinburgh -
Dr J. Stewart is to record
Particle as member of my Board

at the India Office
He also is an old
friend and an excellent
Officer. I am very glad to
have been — of course
they consult me at
the India Office before
they appoint any one.

26 - went with Bessie
and & arrangement to
Society Arts to hear
discussion on Mr Thornton's
paper on irrigation
in India

London ~~1878~~ 4789 87

27. Had a visit from Miss Beilby of the Medical Mission Lucknow. — I do not approve of Lady Doctors and cannot do anything to encourage what I disapprove of. Might I should only be too glad to help the undoubtedly wrong way that did not give ground for supposing that I encouraged them. F. Armstrong & Jack went back to Red-hill they have been staying with us Mrs Shirley came to us

I went with Lord Selkirk
to the Zoological Garden
for political news of
any importance. The
difficulty about the
articles of peace still
continue. — They are
unsettled yet and unsigned
I have presented
Bessie with a Casket made
out of teak wood
brought from my old
house in Lucknow. It
was part of one of
the door or window

London 4791 398

Chowkah - Cantilo, and
was brought from Lucknow
by Mr. H.P. Norman when
on a visit there. it was
very thoughtful and
kind of him. and I
now propose a double
interest that of a souvenir
of my old house in
the Residency - and
also of my kind old
friend who was so
cruelly murdered in
Calcutta at the door
of his Court house

when he was acting as
Chief Justice of Calcutta
I long dept the hog of
death - but at last it
occurred to me to
have it made only
a casket or box
which Mr Erickson
has most kind of 8 ll
done for me - The
box is about 20
inches x 12 x 6. The
margins carved
slightly - the lid
proper to run the box

London ~~1876~~ 4793 41

on the lid is let in a
gold plate made of
Lucknow Gold Mohurs &
on the form of a Shield
and on it is an
inscription presenting
it to my wife as a
souvenir of our old
home and the ordeal
we passed through together
and also a gustation
from the psalm

The box cost us nearly
a little over £9 —
Dear Bessie was much
pleased to have it.
I also had a little
memorial corporate
out of the same
wood.

28 I find I visited
St George Hospital
with Mr Pollock —
and went with Mr
Stirling to Westminster
Abbey. to Agrarian

and to the Royal Society.
in the Enemy

1 March. I was
called up in the night
to see old Mr Cochrane
a well known barrister
formerly in Calcutta
he was living with his
daughter near us in
Somerset St: He was
very old pain done
internal - Vesical
trouble - and I heard
that he died shortly
afterwards - His son
Dr Cowie in the

morning — and I did
not see him again
He was a great age.
was a cousin or
connection of my
Father's old friend
Lord Dundonald
and like him was
said to have been
rather a fore sake
in his youth — prone
to fight duels: he
was well known in
Calcutta for years.

London ~~1878~~ 1797 45

4 March. Peace signed between Russia & Turkey
Elected a vice President of the Medical Society.
Heard from Alice & from New York.
5. The Stirlings left us to day for Edinburgh
Col. Blundell who had long been ill was the very care with the wound lines which came to see me quite well!
I hear that I am likely to get a cadet shop for Jim at Sandhurst.

at College of Surgeons by
Professor Flower. He it was
who proposed me for the
Royal Society.
"At Home" at Stafford House
met a talked to Lord
Chatsworth — Prince Edward
Prince Teck — Miss Bolen
Parker —
Gave my usual lecture
to the Children

48 ~~1878~~ 1800 [illegible] 1878

I think it was about
this time that my friend
Mrs Hill – daughter of
Sir W Grove (Constantine)
Force (~~all~~ used to come
to the lectures. She is
a most charming and
clever woman – her husband
is a judge at Ramleh
Egypt. – She had suffered
from Malarial fever
in Egypt – & I came
to know her port. &
we became fear friends

14 Brunton & I are at

24. Encourage demonstrations for the children — Snow flakes! It was moving this as late

25 March — Cold snowy day — Sad news! H.M.S. Everyshee capsized in a squall yesterday off the Isle of Wight. over 300 mine officers and crew drowned — at a meeting of Medical Society — Filaria sanguinis hominis discussed by Dr Cobbold and others

26. I note I still have

symptoms detected by
Dr Quain: this we may
respect my health as
better: it is more than
four years since he observed
them - I have gained me
weight. & feel pretty well
tho I suffer at times
from neuralgia & feel
disinclined for work
People say I look better
but I have that feeling
of anxiety which I think
must possess any man
who knows what the
impact

of that symptom
may be. It is now
five months since I
touched Alcohol in
any form.

28 Dr Ewart spoke to
me about an enquiry
going on into the management
and economy of the
General hospital in
Calcutta & advised
him on the subject.
He is Surgeon of the
Hospital. It is hardly
to fair to conduct this enquiry
in his absence

Versailles. Aug 27.

Found poor Mrs Stewart
ill & confined to bed — Saw
her with Dr. Pinard. —
R. S. and I went out after
breakfast and walked
in the grounds about the
Chateau. How grand it
is or has been. The assume
of titles has very fine the stiff
and formal. — We went
in and saw the Chapel
of St. Louis — at 2 P.M.
we drove to St Cloud. Lovely
view of Paris. In the
evening heard the Nichols
band play in the Grounds,
There was flower show
going on & the

best things were English

28 To day - Before - Stewart
and I went to see the
Great Exhibition - where
I spent 43 Francs.
Lovely day - very hot - I went
all over the Exhibition
where it was very magnificent
I was especially struck

Dunrobin. 10th Septr Friday

Mr Barnett & I drove to Sheriff's Cross 13 miles in a dog cart. There is a kennel & keeper — we began shooting there — at the Mastery Blantyres house — which is in a very wild site in the moors just above the river — the Blackwater I think they call it. The Master was absent — with sheep of Falkirk hyste — The County is very wild and picturesque here — the stream rising through the Valley falls into Loch Brora a few miles lower down.

We began shooting at 1 P.M. — our bag was at 6 P.M. —

Grouse	40
Black Cocks	5
Snipe	1
Blue hares	11
Rabbit	1
Total	58 Head

The birds were getting rather wild

we frequently got 3 birds with
4 barrels — we both shot
well — Bennett is a good
shot — young and active as
a light weight. he walks
better than I do & rather
hurries the shooting.
My share — was 14 Grouse
— 2 Hares — & 2 or 3 of the
Blacks — we had a
long drive and a long
walk and got home
rather late for dinner.
But I was not over tired
after dinner conversation
with Sunday wore on
usual & then to bed.
11 Sept. Fine day. Lord
Stafford — General Marshall.
Dr Russell and I drove out
to Sheebo's crop again

* Gained the Parkes Memorial Bronze Medal.
† Gained the Herbert Prize. ** Gained the Martin Memorial Medal.

The following were the successful candidates for commissions as surgeons in the medical service of the Royal Navy:—

No.	Name.	Marks.
1.	French, A. M.	3507
2.	Williams, E. H.	3504
3.	Fergusson, E.	3176

Sir J. Fayrer, after distributing the prizes, addressed them nearly as follows:—

Having completed the agreeable duty of distributing prizes to those who have earned those honourable distinctions, I now turn to that of addressing a few words to you on the completion of your studies at Netley, and on the eve of your departure to commence the work of your professional life.

I desire, first of all, to offer my congratulations to the Principal, the Professors, and the medical officers of the Army Medical School on the successful completion of another term, and on the very marked evidence afforded by the report that has just been read, that this institution continues to maintain its high standard of utility, and the candidates the discipline and conduct that becomes their position. I would also take this opportunity of warmly congratulating Surgeon-General M'Lean on his restoration to health, and express a sincere hope that his valuable services may long be continued to the institution, of which he has been for so many years its principal support, and a brilliant ornament.

I feel sure that no one can have seen this school and hospital, with its splendid appliances and machinery for medical education of a special kind, without recognising the great power it must exercise for good on the sanitary welfare of our army and navy, the civil

population of our colonies, and of India; nor can he have failed to observe how great is its capacity for even extended utility. For my own part, I have always longed to see it take a much more prominent part than it does at present in the education and final training of our young medical officers, and I hope the time may come when it will extend its instruction to a greater number, and over a longer period of time to each individual.

Among many rumours that have gone abroad in relation to impending changes in the medical service, there has been one that pointed to the abolition of the school altogether. I can hardly believe that a step so fatal to the best interests of the service should have ever been contemplated, or that if it had, it would ever have been carried into effect. I believe that no such future awaits it, but that it will rather increase in importance and extend its usefulness; that it will not only continue to maintain its present position as a great army and naval medical school, but I even hope that, as a sort of medical staff college, it will become more and more the resort of medical officers, who may here have the opportunity of renewing their knowledge, of keeping themselves abreast of the rapidly-advancing progress of medical science, and of fitting themselves for those special appointments that are so frequently occurring in the services, especially in India.

Times have been unfavourable of late years with the medical services, and many reasons have been assigned for the decadence. This is neither the place nor the time to discuss them or their results, especially when we have every reason to hope and believe that a better prospect is near. This only I would say, that the position of the military or naval medical officers ought to be such as to command an abundant supply of the *élite* of our universities and medical schools, and that it will do so when certain obstacles, which there is reason to hope will be removed, are out of the way.

Gentlemen, I believe a good time is coming, and I trust you will prove yourselves equal to support and do it credit when it arrives; and here I may say to you, what perhaps one not of your own service and profession neither could nor would say, that as some of the difficulties which have stood in the way of progress may have originated in the service itself, how greatly it behoves you all to see that such difficulties should in future be avoided. Important public duties involving great responsibility, if performed by men of education who are of accord in maintaining their self-respect and the dignity of their office in a spirit of unselfish loyalty, must command public esteem and respect, and must also bring social and official consideration and standing. Wanting these attributes, however high the esteem in which *individuals* may be held, that esteem will not be extended to them collectively as a service. I can imagine nothing better calculated than the training at Netley to imbue, foster, and develop that spirit, without which there can be no sustained well-being or real stability in any public service. These are merely *hints*. I leave it to you to make the application.

Gentlemen, I have to congratulate two of your number on the

acquisition of prizes all bearing the names of men who deserved well of their country, and who may rightly be held up to you and other young men, in whatever walk of life, as models for imitation. I trust the success implied in the winning of these prizes may attend you through life; but I would ask you in the future not to regard them merely as souvenirs of a successful career at college, but rather let them act as incentives towards the attainment of that which made Sydney Herbert, Ranald Martin, and Edmund Parkes names of honour and respect wherever they are known, and that may in time to come perchance reflect lustre on your own names. All cannot win prizes, but all must have done well, that you are here at all proves it. I would just say to those who have been less successful than others, that there are many prizes in the career before you if you will take advantage of the opportunities that may offer. I do not undervalue college prizes—far from it, but I am bound to say that I have known men who, if they won none as students, gave signal proof in their after-lives that it was not from lack of ability. I have heard it said that the public services offer no inducement, that they are one dull level of monotonous equality, and that talent, energy, zeal, and the like, do little, or are of no avail more than mere good behaviour and compliance with official decorum and routine. I think this is hardly true here; I am sure it is not in India. When I had the honour, four years ago, of addressing a similar audience here, I gave a sketch of the nature of the Indian medical service, and the appointments it offers to them who will try for them. I might repeat what I then said, but I shall content myself by saying that such appointments still exist; and I think if some of those I then spoke to were here now, they would say I did not mislead them. I do not mean to say that good appointments are to be picked up without effort, or as blackberries may be gathered from every bush, but that they are sufficiently numerous to offer a fair prospect of success to all who really work for them.

Do not suppose there are no drawbacks in the Indian medical service. Climate, expatriation, separation from friends, would all refute the assertion if I made it. There are many appointments, too, with the bare military pay of the rank, and they are not very lucrative; but still I assert with confidence, that no medical service in the world offers better prospect of professional advancement, and even pecuniary success. I need not, I suppose, remind you—you have doubtless found it out long ago—that in no case can one look for much wealth, or rise to high place in the scale of public honours; but these, after all, are not everything: you may look to a useful and honourable life, to professional eminence, to the esteem and respect of others, and perhaps to the consciousness that you have done your duty to your fellow-men in a fashion that falls to the lot of no other profession (save one) to perform. As public medical officers you are charged with the life and health of our soldiers, our sailors, and sometimes of large civil populations, for whom you have to fight the great battle of disease, and against whose

inroads you have to defend the fortress of health. In India your responsibilities are very great, for you will find yourselves charged with extensive duties, and your experiences will be varied. Remember (as I said on a former occasion) that you are not merely the medical officers of the army there. You are the medical profession of a country as large as Europe, excluding Russia, and to some of you will be entrusted the duty of advising Government on the sanitary welfare of 240,000,000 of people. You will be the educational staff of the colleges, the consulting physicians and surgeons of the great centres of population. You will have charge of armies in the field and in garrison, to say nothing of a variety of other civil and military appointments that I cannot stay to enumerate. You will at least have a competency that makes you independent. If you are fortunate, you will have much more. You become entitled, after certain periods of service, to pensions for yourselves and your families, which, if not great, are certainly as good as the pensions of any other medical service; and you may hope to return to your native country at a time of life when you may still be useful to your friends, to yourselves, and to your profession. This is not such a bad prospect! In some respects, perhaps, the Indian medical service has fallen from its former high estate, but it still holds out prizes, and I can honestly say, after many years' experience, that I have not known any really good man to fail in the end. As to climate, with care and moderation in all things, you will probably preserve your health sufficiently to find yourselves equal to those of your own age at home, when you retire from the service.

Gentlemen, my remarks have been addressed chiefly to the Indian medical candidates. I have said little in reference to the British section of the service, for the simple reason that there are no candidates for that service to say anything to. I sincerely hope and believe that this is the last occasion on which he who addresses the Army Medical School will have to make this remark, and that at future distributions my successors will have the gratification of speaking to benches overflowing with candidates for all the three services. There is, indeed, reason, I hope, to think that it will be so. To my naval friends I have only to add that I offer them my best wishes for their success. To those, and there are such, who say that the naval medical service is not a hopeful one, I can only say that it is vastly better than it was when I belonged to it, and that it is still improving; and I would ask where Spencer Wells, Huxley, Hooker, and Macdonald were trained. It is a noble service, gentlemen, and your department of it is an important one. Be true to yourselves, be zealous officers and earnest workers, and loyal gentlemen, and rest assured that you will find in it, like the sister services, a field for an honourable career. I must not detain you longer. It only remains to wish you all prosperity and success in your respective services.—(*Reprinted from the Edinburgh Medical Journal for March* 1879.)

shot at a Roe buck on looking
for it. I suddenly became aware
of a fine Stag facing and
staring at me from among
some bushes and trees.
I fired three shots at him &
through the two first vessel
have passed within a few
inches of his head which was
all I saw of him. he never moved
the third shot dropped him
dead. The Stalker said the reason

28 Dec. Skating continues in Parks. — Went to see the Deffs at Denmark Hill. — Dr and Fred are doing well. — I have heard nothing further from Dr Winchester about the M.P. business — The Solicitor General has expressed an official opinion on the case fully drawn up document. Unless my position with regard to the service and the India Office by the Edinburgh Annuitant Annuitant — that I cannot hold Office at the India Office and sit in Parliament — I think in my apprehension is really trickling this might be disputed — but

I do not care to raise the
question — I am not particularly
anxious to sell in Parliament
and certainly Council offered
to give us £500 a year to
do so — I feel much
gratified by the compliment
paid me — in their wishing
me to take the seal and
preside the Oriental Office of
assistance & of security
my election if I would
stand — and I a younger
man I might have done it
or had I been practical expedient
pecuniarily — I should have
liked it — but as it is I must

Bob from Calcutta is good
and so far of W.C.F. — who is
with a Cryptomeria at Rotherwood
I have paid first half years
allowance of £50 to Mr J. Noble.
All at home are pretty well
20 ends 1879. It has been
in some ways a disastrous
year for the country — but I
have much to be thankful for
my health is better the Children
and their dear Mother are all
well — Mr Arnold dies — cause
some unrest but it is impossible

to hope we escape all trouble —
I have been doing modestly
well — considering all things
are now seeing I am handy
capital — professionally I find
I have made by private
practice this year exclusive
of Standard assurance fees
salary (£150) — £638 11 5
In 1878 I made £871 4 5
but there was one large fee
for going to Sequestering Inquiry, £157 10
which brought it up —
In 1877 I find I made
£578 8 — this is all very
small — less than I might
have expected — but when I

London 5147 163

is considered hard & unweighted
by the order and not practising in
the case of Indian officers. as
the mode in which it is con-
-stituted - and then when we re-
-member that I do hereby all
surgical work out of defence
of the Fellowship of the College
of Physicians. and that all
undergoing a general practice
are out of the question. and
further the undering of this place
of they assign for anything of
all. to make that matters
a specialty. whether you
deem it a heat it be or not

and in which spirit they
have assigned them a broad
complaint from the rest
and nothing else — I am
almost inclined to wonder
I plaintiff at all. especially
when I further remember
that I am not imperfectly
noted if it be true that
I decline all practice. & my
Honours are conceived doubtful
seems to me an insensee of
myself & be right. I leave
the rest to Providence.
I have not noted each day — as many
were uninteresting. nor have I mentioned
the fees received — except on odd occasions

26 August at 9 A.M. I with walker my servant left Euston for the North arrived at Carlisle at 6 am y 17th
Joe had just come home from Cambridge. He and dear Bessie came to see me off also Harry - His tutor Mr Lawrence thinks he is doing well.

27 August - at Carlisle I changed to a Glasgow and S.W. Carriage for Dumfries Reached Castle Douglas at 7-30 - Drove out to Glenlair to visit the Wedderburn

94

Maxwells - after lunch
Mr. Maxwell & went out to
fish on Corsock loch belonging
to Mrs Dunlop, in a boat
There was very little breeze
and scarcely any ripple
on the water - and the
trout did not rise well
we caught only six weight
Drove home along the
pretty & picturesque banks
of the Urr - & felt rather
tired

28 August - Fine day but
very hot. Mr Maxwell
Mr Mackay and I went
out shooting. Mackay
tried to fish a small
loch - but as there was

30-August. Hot day M
and I went to look for
Black game not far from
the house - I stood behind
a stone dyke and the keeper
went over the hill beyond
us - I soon heard a rushing
of wings - when about 20
fine black-cock flew over but they
were too high - we followed
and came on them in
some rough ground &
others in a turnip field
on the other side of a stone
wall - Here we got 11
birds. 4 fine old cocks
2 old hens. 5 young
birds - I got 7 of the 11
we killed also 4 Hares.

The old church is in
mins. Trees higher than
the houses grow in the
centre of it - - Mr Ingrahams
the minister. who was
here when I was a boy

happens to be absent at
Kirkcudbright - his son & Dr
having died there recently
Mr A - is over so -
I saw two very fortunate
old men in H.M.S. "Arrow"
one named J. Milmine
Milmine
visited many of my old
haunts. I saw the houses
in which I lived - the
place - as is always the case
looked smaller - but
otherwise uncle the
same - there are many
new houses - it is rather
a favourite resort as a bathing
place - and of course the

railway has made con-
siderable change —
Our last residence is
now unoccupied or
almost a ruin —
The fine stone pier built
of blocks of stone has been
almost beaten to pieces
by the heavy sea breaking
over it.
We returned to Glenlane
the same evening.
2d September. — a fine but
not day. W. and I went
out with our guns —
Game is scarce as the

late owner of the Estate
Professor Clarke Maxwell
did not preserve or shoot.

October 5th Left Glenlair
went to Portpatrick around
at 5. Met Mr Highland
at the station a dear old
man over 80. He was minister
one more than 40 years ago
when I lived at Portpatrick
as a boy — went with him
to the Free Church Manse
and had dinner. From
his garden there is a fine
view of the old port —
We had long talks about
the old times and the
dear ones all gone —
and many memories
of the past were round
Mr Highland his two dairy men
& grandchildren were there
in his prayer in the evening he
included me in a most touching man

Oct 7. Portpatrick. walked about the Port with Mr. Nyulen saw my old house when a boy remembered all the rooms well. How full of memories of the past. And of the dear ones gone. Saw I Milmine an old sailor of my Father aged 74. I. McCulloch. who remembered me as a child. and all my family and asked after them all by name Mr. Nixon also who remembered me as a boy saw the old pot-hammer the rocks where I used to

bathe

one where I pulled my
brother William only
the water when he stopped
and fell in one has
head in water —
at 2 PM went by train
to Castle Douglas. I was
delighted to see Mr
Aeyerbach again: he
over 80. His wife and
daughters were very
nice and kind —
8. Oct Back at the Isle

Colonel Howells wagonette
met me at the station - I
drove out to Netherside
Hall about 10 miles over
the mountain limestone
hilly country with the
higher ranges & grouse moors
in the distance. The wharf
running through the valley
for there about 5 Pds. Very
cold and bleak. Until
a nothing but pasture the
fields divided from each
other by limestone walls
occasional counts: but
little or no crop of any
kind — Netherside
a fine house pretty
situated on a high bank

at the foot of which
flows the whole a clear
stream as we see
down in a limestone
district - it is pretty
cool - grayling - no
salmon - but the season
was passed for fishing
There is seen my pretty
cow on the other side
of the river - and seen
over the windows of
works very well in the
variegated autumn tints.
Found Col. Mrs Nowell
alone at Netherfield
