Yearly review:
On request by: Ward

David continues to make steady progress although he still expresses a lack of interest and enthusiasm for work - tends to be preoccupied with personal problems at times.

David has no difficulty in grasping and retaining work instructions and his work application is skilful. The standard of his finished work is good (presently employed assembling electric light fitments).

Manner quiet but pleasant and polite when addressed.

Appearance a little untidy. Timekeeping improving.

Signed [signature] Date 9.3.81.
