Plate the First

of the Moon in Plano.

Engraved by John Russell Esq. n.a.
from his original Drawings.

carefully measured by a Micrometer.

THIS PLATE exhibits an accurate view of the LUNAR DISK
in a state of direct opposition to the Sun, when from
the absence of Shadow the mountains and depressions
are ascertained, and every intricate part arising from
local colour or other hitherto unexplained cause is
developed and fully expressed.

In a mean state of Libration.

Planche Premiere

Carte de la Lune.

gravée par John Russell Esq. de l'Académie Royale de Peinture.
d'après ses dessins originaux.

mesurée soigneusement avec un Micrometre.

CETTE PLANCHE offre une vue exacte du DISQUE LUNAIRE
en opposition avec le Soleil, lorsque par l'absence de
l'ombre les elevations et depressions paroissent véritablement,
et toutes les apparences compliquées dues ou à la
couleur locale ou à des causes jusqu'ici inexplicables sont
développées et parfaitement représentées.

Dans l'état de moyenne Libration.

To the Rev. D^r Nevil Maskelyne Astronomer Royal &c. &c.

This Plate is with Permission most respectfully dedicated by William Russell.
