THE POPULAR DIET FOR ALL YOUNG AND IMMATURE STOCK.  
UNEQUALLED FOR QUALITY AND REASONABLE IN PRICE.  
AS GOOD FOR CATTLE AS FOR SHEEP.

Report on Analysis by Mr. F. SUTTON, F.C.S., Analyst for the County of Norfolk.

"The Britannia Lamb Food consists of a very judicious mixture of the most valuable constituents of food, well adapted to the wants of the animals for which it is prepared." "It is a compound of various feeding materials of the best quality, the nature of which any buyer can see for himself, and I have no hesitation in saying that, from long experience of Agricultural Foods and their effects, that no better balanced or nutritious food can be designed than this for Calves, Sheep, and Lambs."

# SAVE YOUR LAMBS BY THE USE OF HOLLAND'S BRITANNIA LAMB & CALF FOOD.

A combination of Feeding products, exceptionally rich in Albumenoids and valuable Nutriment, blended in such proportions, as many years careful experience has shewn to produce the best results. Free from spice of any description, easily digested and assimilated, it gives a healthy tone to the system, preventing scour, debility, and disease; it carries the flock on in robust health to rapid maturity, and thus earns the quickest and best return for the outlay.

Analysis and Report by Prof. SIBSON, F.C.S., late Assistant Prof. of Chemistry, in the Royal Agricultural College, Cirencester, &c.

## ANALYSIS.

	September 22nd, 1886.
	Per Cent.

*Containing Nitrogen 3.30	100.00

## REPORT.

This is a well compounded food. The proportions of oil and albuminous compounds are high, and the composition of the whole such as to conduce to the rapid growth of the young animals to which it is given.

The coarse condition of the mixture is found to be of practical advantage for the purpose intended; while its various constituents being visible to the naked eye is at least a guarantee that nothing objectionable is used in its preparation.

I consider the use of this food will be found advantageous and profitable.

(Signed) ALF. SIBSON, F.C.S.

## IMPORTANT TESTIMONY.

Dear Sir,

It has always been a principle of mine never to give testimonials, and up till now I have never given one, but in this instance I feel so impressed with the value of your "Lamb Food" that I must break through my rule.

I have used over 50 tons of it during the last 12 months and I never had my Lambs do better and keep so free from scour.

I can also recommend it for Calves and Foals.

I am, yours faithfully,

MR. F. E. HOLLAND.

J. B. ELLIS.
