The "BURDIZZO,, Way

IS SURE AND SAFE ON CALVES, LAMBS, DONKEYS, IN A

Swarm of Maggot-Flies

District Veterinary Surgeon's Evidence:

MAZOE FARMERS' ASSOCIATION MEETING (May 16).

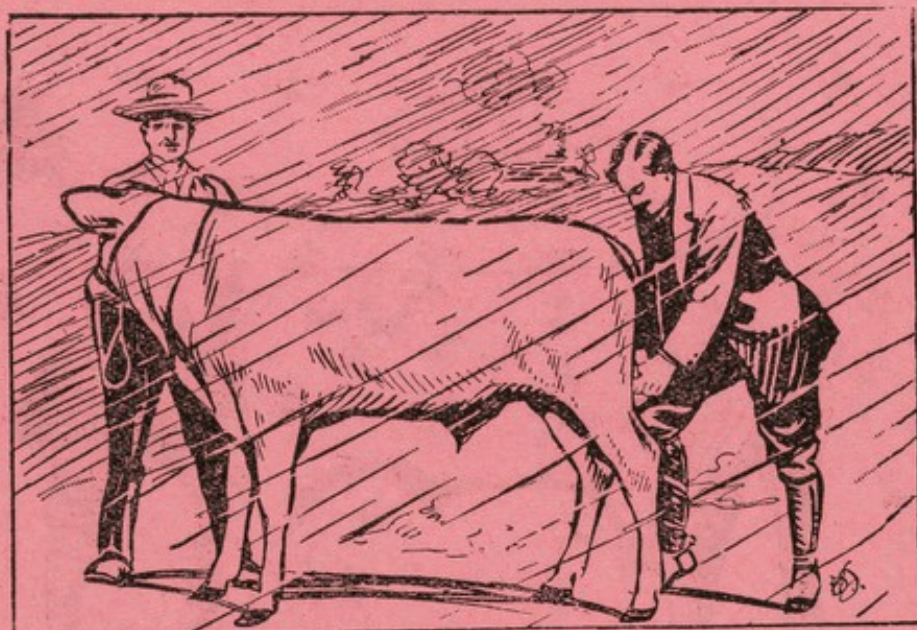

« ...The meeting then adjourned to watch demonstrations by Mr. Haarhoff (manager of Messrs. Wm. Bain & Co., Ltd., Salisbury) and Mr. C. F. Johnston, District Veterinary Surgeon ».

« Mr. Haarhoff demonstrated on a bull calf the use of Dr. Burdizzo's Patent Castrator. The operation was seen to be quite bloodless, not even a small scratch being left on the skin. The operation was declared to be perfectly successful by the District Veterinary Surgeon, and the advantage of the absence of a wound is obvious to those who live in a district where screw-worms (blow-fly) are present ».

Extract from « The Rhodesia Herald », May 19, 1922).

Fifty bulls castrated per hour in rain, dust, heat. Lambs easily castrated and docked without bleeding. Any farmer will learn the operation in 10 minutes.

You can Operate all the year Round.

“No matter what the Weather is.,

Capt. J. C. BALT, S.J.P.,
Sworn Appraiser.

P.O. Narubus (S.W.A.).
December 14, 1925.

« ...Yes you are at liberty to use anything I have said about the « Burdizzo » as I have used it for a number of years, and I shall never be without one again as long as I farm with any Stock at all, because I am fully convinced that it is the only and most humane way of castrating any animal ».

« I castrate from the biggest Bull to the smallest Lamb any time of the year, no matter what the weather conditions are, and I have never had a single loss through castration with the « Burdizzo ».

« I think every progressive Farmer should have a « Burdizzo » on his Farm and do away with the old cruel way of castrating ».
(Signed): Capt. J. C. BALT, S.J.P.

Any Season, any Pasture is suitable, any age or condition of Stock is safe by the « Burdizzo » way. It is the result of Pastoralists' experience as it has been pointed out to us from Australia and South Africa.
