AUSTRALIAN EVIDENCE
 ON THE EFFECT OF CASTRATION WITH THE
 (Trade Mark) "**BURDIZZO**," Pincers
 UPON GROWTH OF STOCK

THE GREATEST VALUE IS IN THE
Condition that stock put on
 AFTER THE OPERATION.

Gregory, New South Wales, 20 October, 1926.

The "Burdizzo" Distributors,
 "Wool Exchange", MELBOURNE.

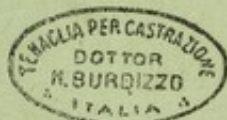

"I have pleasure in stating that I have used the "Burdizzo" pincers with marked success for the past two years, and have found that *all that is claimed for them is justified.*

"I have castrated some 100 odd lambs 9 months old, and the operations were successful and most satisfactory.

"The greatest value is in the condition that stock put on after the operation. I used the pincers on some 9-month ram lambs, which were afterwards killed for rations: *at 15 months they averaged over 50 lb., and at 24 months dressed weight was as much as 76 lb.* I would not return to the knife".

THE OPINION OF THE SECRETARY-TREASURER ON THE TRADE “BURDIZZO” MARK

for bloodless castration of cattle, sheep, donkeys, etc.

« ...I regard the Burdizzo's invention a great blessing to the Animal World and can heartily recommend the same to everyone who is interested in stock-farming.

« Through the invention of the Burdizzo Pincers we are a very great step nearer performing the operation in a humane way.

« Its use is clean and simple and its action is perfect, whereby all the unnecessary torture can be avoided ».

(Sgd.) The Secretary-Treasurer.
