A MOST USEFUL AND IMPORTANT APPLICATION

BIRD'S BOTANIC ESSENCE, OR LIQUID BLISTER

FOR GENERAL LAMENESS IN HORSES,

Is beneficial in all cases of Curbs, Splents, Spavins, Strains in the Back Sinews, Sore Throats, &c., and when applied in its undiluted state, may be used as a common Blister. It may be applied on a Foal, however young, and there is no danger of its removing the hair when applied in its diluted state.

The Proprietor having seen and heard of many cures effected by this Essence, confidently recommends it to the use of every person connected with Horses, as a preparation unequalled.

Among many Testimonials, the following are copies:—

DEAR SIRS,—Having applied your Botanic Essence to a Curb on one of my Hunters with very good success, keeping him at work all the time, I can bear testimony to its being an excellent Blister. It has been done more than three weeks, and the Horse continues quite sound. Some of my friends having been witnesses to its effect, wish to have some in case of accidents.

To Messrs. Pyman & Bird, Chemists.

Northrepps, Norfolk, December 9th, 1835.

I am, yours truly,

E. H. PLAYFORD.

Crown Hotel, Harrogate, April 2nd, 1836.

DEAR SIR,—I have given the Liquid Blister you sent me a fair trial, and find it invaluable. For instance, I applied it on a Spavined Horse, which had been fired, and of course blistered and very much blemished, by a first-rate Veterinary Surgeon at York, and was so lame as to be useless; by applying your Blister, it removed the Spavin, and he is now as sound and as good a Post-Horse as any in Yorkshire. I likewise applied it on a Horse which I used in the Glasgow Mail; he sprained the sinews in both his hind legs; by applying your Blister once he is become quite sound. These statements are facts, which I can prove by my groom, and you shall be at liberty to make what use you think proper of them, along with the name of

To Messrs. Pyman & Bird, Chemists.

Yours truly,

JOSEPH THACKERAY.

Royal Palace Stables, Naples, May 13th, 1851.

SIRS,—I wish you to send me six dozen of your Botanic Essence or Liquid Blister. I have used it for several years, and can speak most highly in its praise. I never like to be without some of it by me.

I am, yours obediently,

To Mr. Bird.

HUGH BYRNE, Master of the Horse to His Royal Highness the Count d'Aquila.
