NEWMARKET

Condition

FOR

Powders

HORSES.

Are strongly recommended for producing a beautiful smooth skin, and for bringing Horses into general good condition ; they give tone to the stomach, increase the appetite, and purge the blood from all gross and impure humours ; they will be found of essential service for grease, swelled legs, coughs and influenza.

DOSE.—A table-spoonful may be given every other night, in a mash or feed of corn ; the Horse may work as usual, being, in fact, more fit.
