From Mr. A. P. AITKEN, the HIGHLAND SOCIETY'S Chemist.

I have made a thorough investigation of Messrs. Quibell Brothers' Sheep Dip, both in the laboratory and in the field. I have proved it to be a first-class Dip.

It is a powerful insecticide, which may be used without injury to the health of Sheep, and without detriment to the quality of the wool. I have tested it alongside of other favourite Dips, and have found none to excel it.

A Large Argyleshire Farmer says:-

Having had your Dip for four years, and being successful at our local Shows, by taking the first prize for wool this year, I have pleasure in testifying to its efficiency for wool growing and cleansing properties.

These Dips are used by the largest Breeders in the World, have received volumes of Testimonials and many Prize Medals.

QUIBELLS' LIQUID DIP (Non-poisonous), in tins and drums, sufficient for 100, 200, 300, 500, 1000 and 4000 Sheep.

QUIBELLS' PASTE DIP (Non-poisonous), in tins and buckets, sufficient for 25, 50, 100, 200 and 2000 Sheep.

QUIBELLS' POWDER DIP (Poisonous), in packets sufficient for 25 Sheep.

QUIBELLS' 'Combined' PASTE DIP, in tins and casks, for 25, 50, 100, 200, 300, 500, 1000, 2000 Sheep

WINTER SHEEP DIPPING.

FACTS! FACTS!! FACTS!!!

Useful to Farmers in Scotland and the North of England.

THE Season for Winter Dipping being now close at hand Quibell Brothers desire to call the attention of Flockmasters to their Liquid, Powder, Paste, and Combined Sheep Dips. The *uniformity* and never failing effectiveness of these Dips is well known, and they are most highly spoken of by all who have used them. Our sales are rapidly increasing, which is an undeniable and most satisfactory proof of the value of these Dips, and is conclusive evidence that we do not over-state the qualities when we say they are the best that are now offered to farmers; and they defy competition. Each of these Dips is carefully prepared with the very *best ingredients* and upon the latest and most *scientific principles* by *qualified Chemists*, who test every batch when it is made, so that farmers can rely upon them being *uniform throughout*.

FOR WINTER DIPPING

To kill all Parasites and water-proof the Wool it is impossible to find a better or more effective Dip than—

1 gallon of Quibells' Liquid Dip in 80 gallons of water. (Non-Poisonous).	} Either alone or with 2 or 3 packets of Quibells' Powder Dip (Poisonous) added.
Or, 20 lbs. Quibells' Paste Dip in 80 gallons of water. (Non-Poisonous).	

COMBINED DIP.—Those Flockmasters who prefer to use a Dip containing Carbolic Acid and Arsenic *united* will find our *combined* Paste Dip a perfect article, much better than many others offered, and cheaper; 15 lbs. makes 80 gallons wash for 100 sheep.

QUIBELLS' SOLUBLE WHITE OIL

For water-proofing the fleece; will not wash off. Mix 1 gallon to 25 gallons water. Cold water may be used, but we recommend a little warm water.

QUIBELLS' SHEEP DIPS.

Are a protection in Winter.

Keep the Sheep Clean.

Grow a lustrous heavy fleece.

Cure Scab; kill all Insects.

Water-proof the Wool.

ALL USING THESE DIPS SAY THEY EXCEL ALL OTHERS.

Recent Testimony as to their excellence from large and constant users.

From Mr. HY. DUDDING, Rily Grove, the celebrated breeder of Prize Lincoln Sheep.

It is with the greatest pleasure I inform you of the good results of your Liquid Dip, which I used a fortnight ago on 660 of my lambs now on Turnips. On examining them some days after I could not find a living fag, and the wool was left in a very clean and nourished state; better than I ever experienced to withstand a rough and cold winter. The half of the above included my Ram lambs, which never looked more blooming. Please to forward me enough Dip for my 700 breeding Ewes.

N.B.—At the great Ram Sales, at Lincoln, on September 1st, Mr. Dudding's twenty rams realized the highest average price, £37 12s.

From Mr. J. PEARS, of Mere, breeder of valuable Lincoln Sheep.

I am pleased to say I have only once been troubled with Scab, caught some years ago by Sheep in transit. I used various remedies with no effect, until I tried yours, and I have had no trace of it since. I always use your Dip now, and I could give many instances where your Dip cured bad cases of Scab. You can make what use you like of this testimonial—for yours is a valuable Dip.

N.B.—At the Lincoln Sales above mentioned, one of Mr. Pears' rams realized the extraordinary price of **200 guineas.**
