# WORMING GRANULES

## FOR CATS

As every cat-owner knows, administering tablets can be extremely difficult. Sherley's Worming Granules are a very easy, no-nonsense solution to the problem of routine worming. The granules are virtually tasteless and odour-free, and are simply sprinkled over your cat's usual food.

### How do I use Sherley's Worming Granules?

**STEP 1** Weigh your cat (you can do this by weighing yourself on bathroom scales, then weighing yourself holding your cat, and then calculating the difference).

**STEP 2** Select how many sachets of Sherley's Worming Granules you will need to dose your cat correctly.

#### Weight of cat

#### Number of sachets

2.5 – 5 lb (1.1 – 2.2 kg)

5.1 – 10 lb (2.3 – 4.4 kg)

10.1 – 15 lb (4.5 – 6.6 kg)

15.1 – 20 lb (6.7 – 8.8 kg)

**STEP 3** Sprinkle Sherley's Worming Granules over your cat's usual food. Give slightly less food than usual, to ensure that your cat eats it all, and so consumes all of the granules. If you have more than one cat, it is advisable to feed them separately, to ensure each receives the correct dose of wormer.

**STEP 4** Write yourself a reminder on your calendar to worm your cat again in 3 months time.

If you have any queries about this product, worming in general, or any aspect of pet care you can call Sherley's direct on 01440 715700

*To receive your free worm information pack please write to Sherley's Ltd, Homefield Road, Haverhill, Suffolk, CB9 8QP*

Sherley's Worming Granules contain fenbendazole 22%

Direct contact with your skin should be kept to a minimum. Wash your hands after use, and dispose of the used sachet in the dustbin.
