### Directions for use

Sherley's Vionate is a high-potency supplement, and so is extremely economical to use. The small daily doses are easily mixed with the animal's daily meal.

Vionate's scientifically balanced combination of essential vitamins and minerals means that you need only worry about giving one supplement - no other additions are necessary.

#### Recommended daily usage rates

To be mixed with feed

##### DOGS

Puppies: 1g (1/2 level teaspoon) per 2kg (4 1/2 lb) bodyweight

Bitches: (in whelp or lactating)  
2g (1 level teaspoon) per 2kg (4 1/2 lb) bodyweight

Adults: 1g (1/2 level teaspoon) per 4kg (9 lb) bodyweight

##### CATS

Kittens: 1g (1/2 level teaspoon)

Adults: 2g (1 level teaspoon)

##### HAMSTERS

250mg (1/8 level teaspoon)

RABBITS, CHINCHILLAS, MINK

1g (1/2 level teaspoon)

##### REPTILES

Snakes & Tortoises: 1/8 level teaspoon per 1/2kg (1 lb) bodyweight

##### BIRDS

Canaries, Budgerigars, etc.: 25mg (1 pinch) each or 2g (1 level teaspoon) per 80 birds

Pigeons, etc.: 250mg (1/8 teaspoon) each or 2g (1 level teaspoon) per 8 birds.

To mix Vionate with bird seed, first stir in a few drops of cooking oil to bind the powder to the seeds. Similarly, if pelleted food is used, bind Vionate powder to the pellets with a little edible oil.

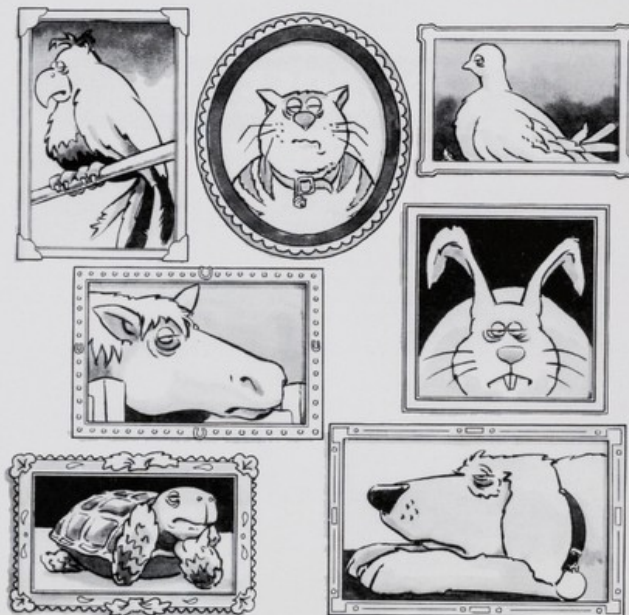

#### Composition:

	Per kg		Per kg
Vitamin A	220,000 iu	Choline chloride	5,750 mg
Vitamin D3	22,000 iu	Copper	60 mg
Vitamin E	120 iu	Cobalt	6 mg
Vitamin K3	88 mg	Iodine	30 mg
Vitamin B1	39 mg	Iron	600 mg
Vitamin B2	79 mg	Manganese	90 mg
Vitamin B6	10 mg	Zinc	300 mg
Vitamin B12	154 µg	Selenium	1 mg
Calcium pantothenate	110 mg	Calcium	94.5 mg
Nicotinic acid	275 mg	Phosphorus	63.6 g
Folic acid	3.9 mg	Sodium chloride	15 g
		Magnesium	0.62 g

Vionate is available in 120 g and 500 g tubs.

## IS YOUR PET IN PEAK CONDITION?

### Is your pet in peak condition?

Care and affection make happy pets, but it takes a well-balanced diet to keep them healthy.

Can you be sure your pet's diet supplies adequate amounts of the vitamins and minerals needed for optimum growth and development?

Puppies and kittens, for example, and particularly pregnant and lactating animals, require increased levels of vitamins and minerals, as do old and sick animals.

## SHERLEY'S VIONATE

Vionate is a specially formulated, balanced vitamin-mineral mix, to supplement the nutritional requirements of dogs, cats, birds, fur-bearing animals and many species of reptiles (eg. iguanas, tortoises, and terrapins). Regularly administered, Vionate can improve general health and appearance, and help assure a long, active, healthy life.

Given regularly, Vionate provides the vitamins and minerals that animals need to:-

- Maintain resistance against disease
- Promote the formation of healthy bones, teeth, and shells
- Help thick, shiny coats
- Produce healthy litters
- Promote natural bounce and vitality

Vionate is recommended by the British Chelonia Group to prevent 'soft shell' in tortoises and terrapins.

### Benefit from 12 vitamins and 11 minerals - in one complete supplement

Sherley's Vionate contains a scientifically balanced formulation of 12 vitamins and 11 minerals.

- Vitamin A for resistance to disease, to aid night vision, and for normal formation of bones and teeth.
- Vitamin D3 for proper bone formation.
- Vitamin E for normal reproduction and muscle development.
- Vitamin K3 for normal thyroid function and to aid in wound healing.
- Vitamin B1 for a healthy nervous system, and for good appetite and digestive function.
- Vitamin B2 and nicotinic acid for optimal growth, skin condition, and function of all body cells.
- Vitamin B6 for metabolism of proteins.
- Vitamin B12 to promote growth.
- Calcium pantothenate for glossy coats, healthy skins, proper growth, and good appetite.
- Folic acid for growth, reproduction, and healthy blood.
- Choline chloride to help in metabolism of dietary fats.
- Calcium and phosphorus for strong, sturdy bones.
- Copper for blood formation and energy metabolism.
- Iodine for efficient thyroid function.
- Iron and cobalt for blood formation.
- Manganese for bone formation.
- Zinc and selenium for good skin and coat condition.
- Sodium chloride for proper acid balance and muscle function.
- Magnesium for proper functioning of the neuro-muscular system.
