A Practical Teacher's Opinion.

"Many thanks for your letter and for the delightful packet of Kindness Cards. . . . We have bought more packets, as we shall find them so very helpful in school. I shall be able to use them in nearly all my classes over and over again. The little ones will love to describe the pictures in their own way, while the older ones will be able to reproduce the matter contained on them and give their impressions. . . . I really think them charming—there is so much in each one that a casual glance is no good. I am showing them round to my friends, and hope that they will be introduced into many of the schools."

While the value of pictures as a means of educating the young is everywhere admitted, no systematic attempt has been made to produce pictures for our schools which shall convey some useful and humanising lessons, and serve to suggest and stimulate thought as to our proper conduct towards the sub-human races. This series is an attempt to fill the gap. The pictures are 40 x 30 inches in size, and are carefully printed in five colours on stout manila paper.

Don't chain your Dog all Day.

What the "Animals' Friend" Is and Does

1. The *Animals' Friend* speaks out freely and consistently against **all forms of cruelty**. It tries to judge all questions without prejudice, from the animals' point of view.
2. It aims at being **constructive in its policy**, accentuating the positive side of humane work rather than dwelling on the cruelty and injustice by which we are temporarily surrounded.
3. It makes a speciality of **Humane Education** both in the home and the school.
