STOP ILLEGAL
POISONING
OF OUR WILDLIFE

POST

CARD

Published by the Department of the Environment. Printed in Great Britain 91 EP0164.

Yellow Labrador. At least 56 dogs of various breeds were killed by pesticides in 1989 alone. Poisoned baits are illegal, inhumane, and often endanger other animals, pets and even children. You can help stop illegal poisoning by pesticides by reporting suspicious incidents to the Wildlife Department of your local office of the Ministry of Agriculture (SOAFD in Scotland; WOAD in Wales).
