Time to blow the whistle on Animal Experiments?

Dear Friend

Maybe you are happy in your work? Maybe you have no qualms at all about the animal experiments which take place in these buildings? Or perhaps you have seen, read or heard something which makes you feel uneasy? Either way, please read this card and keep the address for future reference. You never know when it might be useful.

Please don't be fooled by the propaganda claiming that all anti-vivisectionists are violent extremists. At **Animal Aid** we are dedicated to peaceful campaigning, but we are severely hampered in our work by the excessive secrecy of animal experiments. That is why we are asking *you* if you can help. We are not asking you to do anything that conflicts with your conscience, but we do desperately need information and

photographs to back up our work. Can you help? If so contact the address below or telephone. **Full confidentiality will be respected.**

We realise that we are asking a lot. It takes great courage to stand up for what you believe in against the pressures of needing a job or the opposition of your colleagues or department. But far from being disloyal, those who 'blow the whistle' on cruel or negligent practices in animal research laboratories are acting in the public interest and deserve all the praise they receive.

If you help us you will be in good company. For example, it was inside information from the *Biosearch Laboratories* in the USA, that led to revelations that *Benetton* were using rabbits in cosmetic tests; information which, when publicised in the *Daily Mirror*, caused the company to reject animal experiments. So your information could bring about changes for the better.

Please do consider helping us either now or in the future.

We are prepared to pay up to £250 for relevant information and photographs.

Contact 'Whistle Blowers', *Animal Aid*, 7 Castle Street, Tonbridge, Kent, TN9 1BH. Tel: (0732) 366533 or if you wish for further details, fill in the form overleaf.

I sympathise with the aims of Animal Aid and would like further details on how to go about releasing information.

I would like further information explaining why Animal Aid oppose the work we/I do here.
