WARNING

SmithKline Beecham
funds animal experiments at
Huntingdon Life Sciences.

Boycott their products

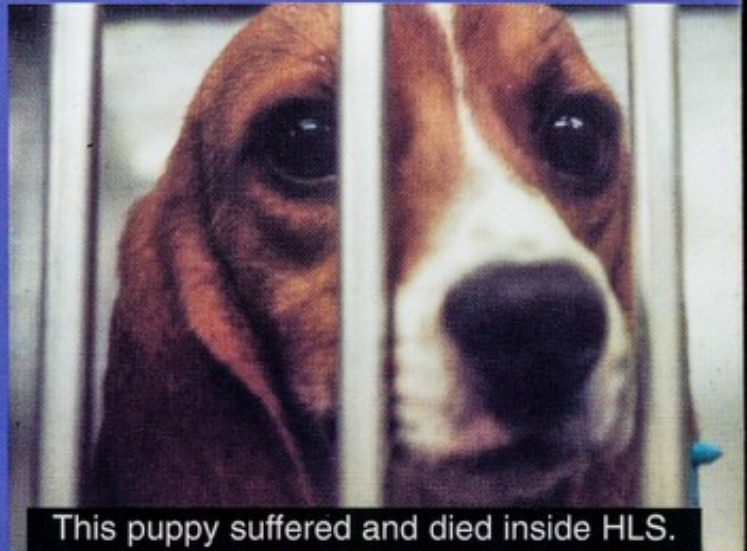

Who are Huntingdon Life Sciences (HLS)?

Inside the labs at Huntingdon, Cambridgeshire & Eye, Suffolk, 500 animals are killed EVERY SINGLE DAY. These include cats, dogs, monkeys, rabbits and birds. No animal leaves HLS alive. Animals at HLS suffer incredible pain before they are killed. Channel Four secretly filmed four month old beagle puppies being shaken and punched in the face during a poisoning experiment at HLS labs in Cambridgeshire. All these dogs were killed. **WHAT WOULD YOU DO IF THIS WAS YOUR PET?**

Products of Agony

The products on the front of this leaflet are produced by SmithKline Beecham. SmithKline Beecham fund animal experiments at Huntingdon Life Sciences and are one of their largest customers. The products listed below help pay for the misery and torture inside HLS's labs.

This puppy suffered and died inside HLS.
