THE METROPOLITAN LABORATORY,
32, HOLBORN VIADUCT, LONDON, E.C.

The very large and constantly increasing demand for thoroughly reliable Analytical work has led to the establishment of "THE METROPOLITAN LABORATORY," which, it is believed, will meet a widely spread want.

Every description of Chemical and Microscopical work is undertaken, and executed with the utmost possible care.

Commercial Analyses receive every attention, and the greatest attainable accuracy is guaranteed; in urgent cases the result can be sent by telegram.

Special attention is given to Water Analysis, and matters connected with Hygiene.

The Fees have been fixed at as low a scale as is compatible with thoroughly good and sound work, and will be forwarded on application.

All communications to be addressed to the Principal, H. S. CARPENTER, F.C.S., F.R.M.S., and Cheques crossed "London Joint Stock Bank."
