Dear Colleague:

Thank you for taking the time to inquire about our Ultrasonic Processors.
Enclosed is the information you requested.

At Sonics & Materials we design and manufacture all our ultrasonic equipment at our facility, in Danbury, Connecticut. It is our only business; and over the past 24 years, we have earned a solid reputation as the technological leader in the industry.

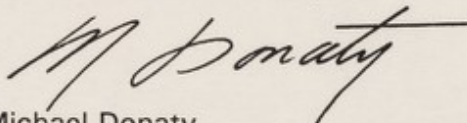

The Vibra Cell offers uncompromising quality, performance and value. We believe that our unconditional three-year warranty - that covers both parts and labor - is an expression of confidence in the instrument to provide dependable service, and a tangible example of our commitment to user satisfaction.

Should you be in need of additional information, a demonstration, or a formal quotation, please do not hesitate to contact us, or your Representative listed below.

We appreciate your interest in the Vibra-Cell, and thank you again for giving us the opportunity to submit our descriptive literature.

Sincerely,

SONICS & MATERIALS, INC.
