Solid Phase Extraction with Waters Sep-Pak Vac™

Most solid phase extraction (SPE) cartridges look pretty much the same.
But over time, the results they produce can vary significantly.
That's why scientists look for batch-to-batch and lot-to-lot reproducibility...
...guaranteed when you use Sep-Pak Vacs from Waters
- the pioneer of solid phase extraction technology.

Invest in Waters quality at an attractive price

Compare our prices and see for yourself.
In addition to being the most reliable,
our Sep-Pak Vacs are also one of the most
economical ways to prepare your samples
- manually, or automatically with robotics,
or batchwise with Waters Vacuum Stations.
