**When  
sterile  
isn't  
enough...**

**Certified Non-Pyrogenic**

Costar's FDA registered, medical device facility manufactures with strict environmental and process controls. All Costar Stripettes are certified to be non-pyrogenic with an endotoxin level less than 0.5EU/mL following U.S.P. XXII Bacterial Endotoxins Test(85). The procedure is a chromogenic limulus ameocyte lysate test with results expressed in endotoxin units.

**Introducing Certified Non-Pyrogenic Stripettes!**

Your research demands controlling variables. Endotoxins have been shown to affect cellular functions and are a potential source of variability in cell cultures. Now Costar Stripettes are more than just sterile, they are certified non-pyrogenic.

The introduction of our certified non-pyrogenic Stripettes sets a new standard in quality and complements our full line of non-pyrogenic cell culture labware. A non-pyrogenic surface is just the latest of many improvements we've made as part of our commitment to offering innovative quality products for cell culture.

## EASY TO READ

### Improved optical clarity

A new production technology has given the Stripette unsurpassed optical clarity, making volumes easier to read.

### Magnifying stripe

Only Costar Stripettes have a color coded stripe which magnifies the meniscus, allowing fast volume reading and easy pipette identification.

### Bi-directional graduations

You can choose between ascending or descending volume scales on 5 mL, 10 mL, 25 mL, and 50 mL Stripettes.

### Negative graduations

Extended graduations on 1 mL, 2 mL, 5 mL, 10 mL, and 25 mL Stripettes provide valuable added capacity.

## DEPENDABLE

### Ultrasonically welded mouthpiece and tip

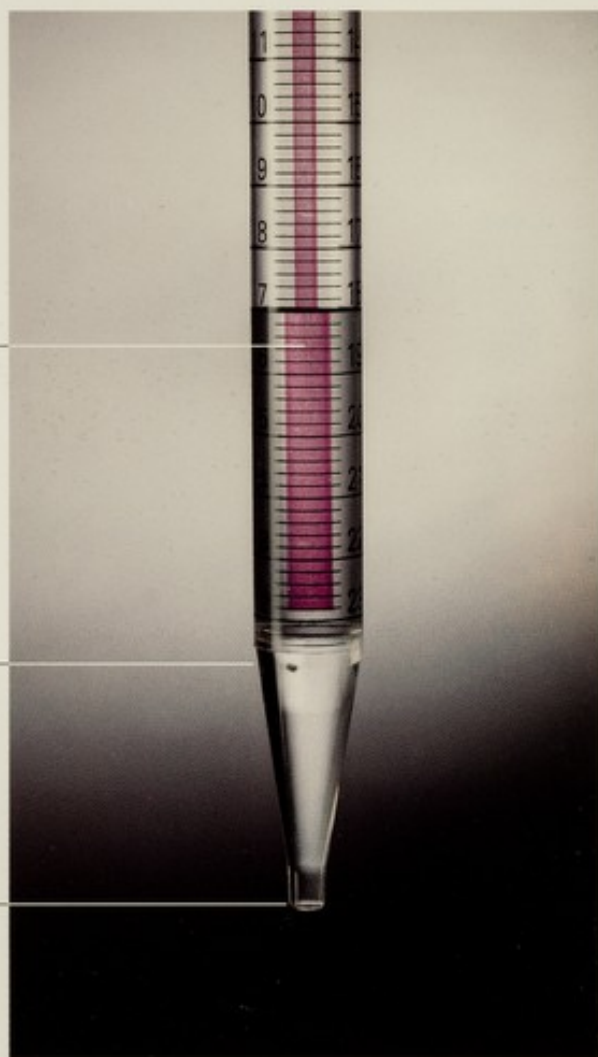

Costar offers unrivaled weld strength to ensure against leaking and breakage. Each weld is individually monitored to avoid over or under weld conditions.

### Anti-drip tip

Our cylindrical tip design on 25 mL and 50 mL Stripettes effectively reduces drippage by increasing the effect of surface tension.

### New 40% thicker wrap

The new wrap provides added assurance of sterility and allows full view of the pipette for size identification.

## LESS SPACE / LESS WASTE

### Smaller boxes

Costar's new Stripette boxes contain the same quantity of Stripettes, yet take up to 30% less space in your storeroom or lab.

### Recyclable boxes

Our new recyclable boxes include recycled paper; requiring less virgin cardboard, they're environmentally friendly.

### Single material bag and wrapper

Our bags are recyclable LDPE and single material for ease of recycling. Our all-plastic wrappers require less space than paper/plastic wrappers before and after use.

## Costar Offices

### Corporate Headquarters

One Alewife Center  
Cambridge, MA 02140  
Tel: (800) 492-1110  
(617) 868-6200  
Fax: (617) 868-2076  
Telex: 275174

### West Coast Office and Distribution Center

7035 Commerce Circle  
Pleasanton, CA 94588-8008  
Tel: (800) 334-1677  
(510) 463-2530  
Fax: (510) 463-2029

### European Office and Distribution Center

Costar Europe Ltd.  
Sloterweg 305a  
1171 VC Badhoevedorp  
The Netherlands
