Dear Mr Lowther

Ref: IBL (Finnpipette Digitals)

Thank you for your enquiry regarding the extensive Finn timerange of liquid handling devices. I have enclosed literature which details the information you requested.

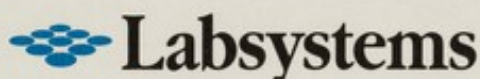

Labsystems were the first company to develop the adjustable single and multichannel pipettes and are still leading the way in this market. New products include, fully autoclavable pipettes, variable spacing Multichannel pipettes, and a range of instruments and consumables designed specifically for the molecular biologist.

In addition to providing you with the best liquid handling products, we also pride ourselves on delivering the finest after sales service and support, all in compliance with the BS5750 quality standard.

Labsystems offer the widest range of pipetting instruments in the world and we hope you find the ideal pipette for your work from our selection. If you require further information, or a demonstration, please contact our office and we will be happy to assist.

Yours sincerely

A. DeWitt
