Dear Mr Lowther

#### RUSSELL ELECTRO-CHEMICAL PRODUCTS

Thank you for your enquiry requesting information on our range of electro-chemical sensors and ancillaries.

The expanding Russell programme of products is fully described in the enclosed literature which I hope you will find helpful.

You will notice that we offer a very comprehensive range to suit every application and this is backed up by a skilled Technical Services Section who are pleased to advise on difficult areas of measurement.

Russell products are manufactured to BS5750 (Part II) ISO9002, "Total Quality Audit" and we are continually striving to improve still further our unique quality assurance procedures.

Russell electrodes are compatible with all makes of pH/Millivolt meters by use of the Russell/S7 detachable cable thereby ensuring total flexibility and ease of ordering.

Most of our products are manufactured in our custom built factory in Auchtermuchty and are available within 7 days of receipt of order and you will notice from the enclosed price list that we offer excellent value for money across the range of our electrodes and ancillaries.

If your enquiry related to the "Water Analysis Products" catalogue illustrated on our advertisement we would like to advise that these products are available only from a stockist near you. If it is this catalogue that prompted your enquiry, please let us know and we will ask our distributor for your area to contact you.

Thank you for your interest and we look forward to receiving your enquiries and orders in the near future.

Yours sincerely

Michael J Russell  
International Sales & Marketing Director
