27-3-96

DISCOVER THE HIGHEST CONCENTRATION OF EXCITEMENT AT SIA '96.

Beware the faint of heart. Those people easily shocked should stay away. But if you're ready for the most exciting news in the world of HPLC today, there's only one place for you at SIA '96. Stand No. 202. The Waters stand.

Because we're unveiling the most significant new product line in our history: Alliance HPLC systems. And, in all due modesty, we believe that Alliance is unlike anything the HPLC industry has ever seen.

We created Alliance systems using advanced technology in new ways. And combined it with Water's thirty years heritage of dedication to HPLC excellence. The result is a new, better approach to HPLC.

One of the most striking aspects of the Alliance concept is the industry's first combination solvent and sample management system.

The integration of this next generation of solvent delivery with the world's most respected auto-sampler means consistent performance, enhanced producibility, and higher quality results. Combine this with the flexibility to choose the most appropriate detector and results management system and you have what is clearly today's optimal solution for your laboratory.

You can come and see Alliance on the Waters stand or come to a series of presentations from Waters which will be held in The Severn 1 room at the conference centre. There will be three sets of identical presentations as shown below.

Attendance is free and tea or coffee will be available. You may attend all or part of any one of these sessions. It would greatly assist us if you would complete the attached reply card and indicate which session you would prefer to attend.

We look forward to seeing you, at the presentations or on stand 202.

Excitement guaranteed.

Session 1 Tue Apr 16 pm	Session 2 Wed Apr 17 am	Session 3 Wed Apr 17 pm	Presentation
2.00	10.00	2.00	Introduction
2.15	10.15	2.15	Alliance Systems - taking HPLC to a new level
3.00	11.00	3.00	Discussion/Tea
3.15	11.15	3.15	Advanced Spectral Analysis with the 996 Photodiode Array Detector
4.00	12.00	4.00	Break
4.15	12.15	4.15	Positive Compound Identification using the Integrity LC-MS System
5.00	1.00	5.00	Discussion/close

Waters

HEY, I COULD USE A LITTLE EXCITEMENT.

I want to learn more about Alliance Systems and other Waters products.

Name _____

Organisation _____

Address & Postcode _____

Phone _____

Fax _____

I would like to attend:

- ☐ Session 1
☐ Session 2
☐ Session 3

My job function is:

- 16 ☐ Research
17 ☐ Methods Development
18 ☐ Analytical Services
19 ☐ QA/QC
20 ☐ Process Control
21 ☐ Consulting
22 ☐ Teaching
