## Why boycott Esso?

**Fact 1:** Esso is doing more than any other company to sabotage international action on global warming. Esso has used its wealth and power to run a ten year campaign of dirty tricks to sabotage the Kyoto global warming Treaty, the only international agreement to stop global warming. Because of Esso, US President Bush ditched the Treaty.

**Fact 2:** Esso still denies that burning oil causes global warming: UN Scientists have confirmed that global warming - bringing with it floods, storms and droughts - is caused by burning oil, coal and gas. Over 160 governments agree. But, like the tobacco companies who denied smoking causes cancer, Esso denies burning oil causes global warming.

**Fact 3:** The richest company in the world won't invest one dollar in renewable energy: Esso made \$17.7 billion in profits worldwide last year - the biggest ever profit for any company, but spent not one dollar on renewable energy. If anyone can afford to tackle global warming, it's Esso.

**Esso is the world's number one global warming villain. Esso thinks it's too big for the rest of us to stop it, but it's wrong. Global warming is the greatest environmental threat facing the planet today. Stopping Esso is a vital step toward stopping global warming.**

## How you can help

1. **Boycott Esso**
2. **Order a campaign pack to help spread the word**
3. **Donate to the StopEsso campaign.**

To get a campaign pack write to **info@stopesso.com**  
or: **StopEsso, Freepost LON 18448, London N1 2BR**  
Cheques can be made out to StopEsso and posted to the above address.  
Credit card donations: **call 0870 010 9510**
