NEW DIETETIC PREPARATION FOR COUGHS, COLDS, ASTHMA, &c.

LIEBIG'S CONCENTRATED MALT EXTRACT,

PREPARED UNDER THE BARON'S SPECIAL AUTHORITY, BY
ED. LOEFLUND, STUTTGART.

SOLE AGENT FOR THE UNITED KINGDOM,
VAN ABBOTT,
INVALID, DIETETIC, AND WINE DEPOT,
5, PRINCES ST., CAVENDISH SQUARE, LONDON.

LIEBIG'S EXTRACT OF MALT is a new preparation for COUGHS, SORE THROATS, HOOPING COUGH, DIFFICULT AND TROUBLESOME RESPIRATION, and all Diseases of the Throat and Lungs, facilitating expectoration, and soothing the irritation of the mucus membrane.

Several preparations have lately appeared under the name of EXTRACT OF MALT, which really could lay no claim to the name, containing the results of fermentation, alcohol, carbonic acid, &c., which in many cases causes the most disastrous consequences.

Amongst the various qualities which distinguish the EXTRACT OF MALT prepared by LOEFLUND, from the special receipt of BARON LIEBIG, are the following,—

- 1.—Its great richness in Sugar of Malt, produced by the germination and the action of the diastase on wheaten starch.
- 2.—Complete absence of dregs and products of fermentation, such as alcohol and carbonic acid.
- 3.—Agreeable and pleasant taste arising from the thickening in the vacuum at moderate temperature.
- 4.—Exact proportions of phosphates and albuminous bodies, which form the nutritive properties of the preparation.

Consequently principles of the greatest importance for Medicinal purposes, as well as for Health, are here united in the most concentrated form, and at the same time soluble and of easy digestion. These principles are,—

Resolvent and emollient	Sugar of Malt and Dextrine.
Nutritious	The Phosphates and Albuminous ingredients.

An Analysis of this Extract of Malt, made by Professor HAAS, gives the following results :

36.5 SUGAR OF MALT	5.4 ALBUMEN, WITH 0.75 AZOTE
30.6 DEXTRINE	1.3 ASHES, CONTAINING 0.56 PHOS-
26.2 WATER	PHORIC ACID.

The faculty having found such valuable results in the use of the Malt Extract, have already, in several instances, prescribed it in preference to Cod Liver Oil, on account of its great efficacy and agreeable flavour.

The Extract of Malt is sold in bottles at 1s. 9d. each, signed by ED. LOEFLUND.

DIRECTIONS FOR USE.

For adults a tea-spoonful, and for children half that quantity, either plain or mixed in a wine-glass of water, milk, tea, coffee, or soda-water.

Wholesale Agents—BARCLAY & SONS, Farringdon St.; EDWARDS, Old Change; NEWBERRY & SONS, St. Paul's Churchyard; SANGER & SON, Oxford Street.

RETAIL OF ALL RESPECTABLE CHEMISTS IN THE UNITED KINGDOM.
