Vitaquell

Information

VITAQUELL EXTRA

is a health food and diet margarine. On the one hand, Vitaquell extra meets health food criteria because it is produced using a minimum of 15% cold-pressed, non-refined (naturally obtained) sunflower oil, maize germ oil and wheat germ oil. On the other hand, Vitaquell extra also fulfills the requirements of a diet margarine. It contains 42% linoleic acid - but less than 25% saturated fatty acids-, and is thus also suitable for a diet rich in polyunsaturated acids.

250 g - tubs (6 kg/cs)
10 g portions pack (2 kg/cs)

VITASIEG

Pure, unhardened vegetable margarine for frying, baking, cooking and table uses. Contains no animal or dairy ingredients; no added salt, low sodium.

250 g - tubs (5 kg/cs)

VITAQUELL CUISINE

Ideal for perfect healthy cooking and table use, vegetable margarine without any animal, dairy or artificial ingredients.

500 g - tubs (10 kg/cs)

VITAQUELL LIGHT

is an unhardened and non-esterified half-fat vegetable spread with 50% fewer calories than normal margarines or butter. It contains 20% polyunsaturated fatty acids. Because of the contents of only 40% fat it is particularly suitable for a calorie-controlled diet. This product is good for spreading, baking and other cooking methods except frying. It mixes well in sauces, soups and cake fillings.

100 g Vitaquell light only contain 360 kcal.

250 g - tubs (5 kg/cs)

NUXI CHOCOLATE-NUT-SPREAD

For a better breakfast and at tea-time, test it for yourself! NUXI is the healthy spread. Right for everyone, old or young. Finest honey, mild maple syrup, wheatgerm, cocoa and hazelnut give NUXI the taste that children love. But its not only the taste that makes NUXI so unique. It is the carefully chosen ingredients that nourish: Sweetened with honey and maple syrup, NUXI is rich in active nutrients and constituents from wheatgerm, unrefined cold-pressed oil and lecithin. NUXI, always a welcome table guest. For NUXI we use only non-hardened, non-esterified fats. NUXI is free from all milkprotein, lactose and suitable for vegetarians. Low in salt.

VITAQUELL SUNFLOWER OIL

Vitaquell sunflower oil is produced according to the most stringent health product standards from sunripened, fertile, selected sunflower seeds which have been cold-pressed at temperatures not exceeding 50 deg. C and without the use of chemical solvents. Because of the absence of the usual chemical processes (refining) the natural substances associated with the oil such as the phosphatides are fully retained.

Not recommended for use in frying. Edible oils with high contents of linoleic acid like Vitaquell Sunflower oil are very sensitive to oxygen and light and may easily become rancid. Therefore, Vitaquell oils are offered in special light proof tins. After use the oil should be stored sealed and in a cool place.

0.5 l - tins (6 tins/cs)

1.0 l - tins (6 tins/cs)

VITAQUELL WALNUT OIL

Cold-pressed, non-refined. Almost colourless walnut oil which has a pleasant aroma and a nutty taste. Eminently suitable for delicious salads and the finest dishes.

0.25 l - tins (6 tins/cs)
