# Alvord's OLD VIRGINIA Corn Relish

*"The Taste  
That Tempts"*

When used with

## OYSTERS

Clams, Fish or Meats it is a perfect condiment. It adds a smack that is all its own—no other relish like it. **Alvord's Old Virginia Corn Relish** is a direct incentive to good appetite and digestion. It combines to make a full flavor that is beyond compare.

A smoothly blended mixture of the freshest and sweetest milk corn, "Ye Country Gentleman," seasoned with pure and pungent spices, its softness and delicacy well deserve the term, "The Taste that Tempts."

No one flavor predominates, but all unite to make **Alvord's Old Virginia Corn Relish** the par excellence of table condiments.

The recipe for **Alvord's Old Virginia Corn Relish** has been the possession of a Southern family for generations and its fame spread far and wide. Its popularity is due to its **piquancy, originality and indescribable flavor**; and the best proof of this is the already enormous demand for it, which is increasing daily.

When we made arrangements with Mrs. Alvord to put up Old Virginia Corn Relish under her personal supervision and place it on the market for her, we anticipated a large sale. We realized that people who enjoyed good things for the table, **once they tasted this relish**, would become steady patrons. But we were frankly surprised at the great demand for Old Virginia Corn Relish by people all over the country. It merely goes to show that a meritorious article is instantly recognized when put within the reach of people who appreciate high-class edibles.

The high excellence of **Alvord's Old Virginia Corn Relish** comes from the exceedingly high quality of the nutritious and costly ingredients from which it is made. The greatest care is used in putting up each bottle to insure that healthful, wholesome, delightful quality which has made the relish so famous. The finest part of the product of "Ye Country Gentleman" Sugar Corn is used in putting up each bottle, and all the other ingredients are of the same high standard of excellence.
