# CRYSTAL

TRANSPARENT  
JAM POT  
COVERS

WITH \_\_\_\_\_  
WAX TISSUES, TITLE LABELS  
AND RECIPE SLIPS.

2lb. SIZE

### PAPER ECONOMY

The Covers have always been interleaved with paper to facilitate easy separation but this is no longer possible. The circles come apart quite easily when immersed in water.

### RUBBER BANDS

The Ministry of supply will not allow Rubber Bands to be distributed with Jam Pot Covers. Use string or cotton to hold cover in position while damp — the cover will contract when drying which automatically seals jar.

### DIRECTIONS FOR USE

Place Wax Tissue on top of Jam. Moisten the Transparent Cover and affix over top of jar. As it dries the cover will contract, giving a complete air-tight sealing.
