A PROBIOTIC LOW FAT YOGURT

*Müller Vitality is a new delicious tasting, fruity low fat yogurt which contains a special probiotic culture aimed at helping to keep the digestive system in balance.*

Probiotics are "good" bacteria naturally present in our bodies, but we may not always have enough, for example, if we are not eating a balanced diet, are stressed or taking antibiotics. Vitality, if eaten regularly and as part of a balanced diet, can help keep the digestive system in balance.

Müller Vitality is available in Raspberry, Apricot and Pineapple

*So if you are concerned about your well being, but do not want to compromise on taste, this is the yogurt for you.*
