NESTLÉ MAKES THE BEST

Nestlé - The World Food Company

Where It All Began

In 1867, in Switzerland, Henri Nestlé developed an infant milk food which saved the life of a friend's baby - and formed the beginnings of the modern Nestlé group.

Originally based on milk and dietetic foods, Nestlé has expanded to produce a vast range of food and drink and today is the largest food manufacturer in the world.

Nestlé In The UK

Mestlé has been in the UK for over 100 years and is one of the country's leading food manufacturers. With 23 factories, Nestlé UK is an important contributor to the UK economy.

It employs over 13,000 people and its annual sales exceed £1.7 billion. Last year it exported £300 millions' worth of British-made products to over 120 countries throughout the world.

Nestlé's contribution to national life goes beyond the food it makes, the taxes it pays and the jobs it provides. It also contributes to the communities in which it operates.

At the heart of this activity is Nestlé's partnership with Kids' Clubs Network - an organisation which provides childcare outside school hours for over 100,000 kids throughout the UK.

Nestlé Makes The Very Best

rom a breakfast-time bowl of cereals to a hot chocolate nightcap, Nestlé's brands are part of the life of millions of people around the world.

Many are household names, thanks to Nestle's memorable advertising. The list includes famous brands such as Nescafé, Findus, Crosse & Blackwell, Quality Street, Kit Kat, Polo and Smarties. The picture shows the full range of brands which Nestlé sells in the UK.
