THISTLE SCIENTIFIC LTD
DFDS HOUSE
GOLDIE ROAD
UDDINGSTON
GLASGOW
G71 6BR

Thistle Scientific Ltd. was established in December 1997. During the past 6 years Thistle has grown and developed as a major supplier of products to the Life Science research market. They are the appointed UK distributor for a number of international suppliers manufacturing products designed for this sector e.g Axygen, Biometra, Ibidi, and Nichiryo.

Thistle are based near Glasgow and from their headquarters they support a sales team of six experienced representatives who are located throughout the whole of the UK. They offer assistance in selecting the best products to meet your needs and will ensure that you are happy with what you receive. To find out who your local representative is, please log on to our website.

For more information on any or all the above please visit the web site

THISTLE
SCIENTIFIC

"where customer care comes naturally"

LIQUID handling

We offer a full range of automated and manual liquid handling products manufactured by Nichiryo, including the Nichipet mechanical and electronic pipettes. These offer many innovative design features.

CONSUMABLE plasticware

Our comprehensive range of quality plastic consumables manufactured by Axygen includes tips, tubes and PCR plates. Many of these products are available in Maxymum Recovery format offering minimal sample retention.

ELECTROPHORESIS

The Horizon and Sunrise tanks are already the units of choice for many scientists. The wide selection of units available will suit most applications. These are complemented by the Biometra power supplies to meet your requirements.

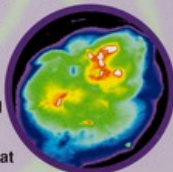

THERMOCYCLERS

Whether you require a small personal cycler, gradient capability or a versatile robotic system, the Biometra thermocyclers are amongst the fastest and most efficient instruments currently on the market. We'd be pleased to offer you an evaluation so you can see the difference for yourself.

MOLECULAR imaging

We offer a wide range of imaging systems to satisfy your budget and requirements. Whether it's molecular imaging equipment capable of imaging both in-vitro and in-vivo samples or stand-alone gel doc systems, we have something that will meet your needs.

REAGENTS

In addition to equipment, Thistle also supply buffers, reagents and kits commonly used with the equipment above. These are sourced from quality suppliers so you can have confidence in your results.

LAB-ON-A-SLIDE

With the increasing trends in micro technology Thistle have launched a new range of μ -Slides manufactured by Ibidi. The slides are designed for studies involving Confocal and Inverted Fluorescence microscopy.

OTHER BIOSCIENCE equipment

Thistle offers a complete range of other bioscience equipment including Spectrophotometers, Orbital shakers, etc. required to help fully equip any Life Science laboratory.

Please complete the tear-off slip to ensure that your contact details are correct. In return for a completed slip we will send you a free THISTLE MUG.
