NUTRITION SERVICE

May 1993

Dear Colleague,

I'm writing to remind you about the National Dairy Council's series of research Awards for community nutrition projects.

RCGP/NDC Practice Team Nutrition Awards

Two grants are available - one for £5,000 and a second for £3,000. Applications need to be received by 30th September and should be submitted by a GP.

RCN/NDC Nutrition Research Award

This Award is category 10 of the RCN Nurse '93 Awards. Grants totalling £5,000 are available. This Award is open to all RCN members resident in the UK and the deadline for applications is 30th June.

BDA/NDC Award

A grant of £5,000 is available and the Award is open to all State Registered dietitians. Applications need to be submitted by 17th September.

HVA/NDC Award

Again, a grant of £5,000 is available and the Award is open to all HVA members. Applications should be submitted by 10th September.

You may not feel that the ideas you have are substantial enough to win one of these Awards but often the best ideas are the most simple ones - you might just be pleasantly surprised.

Applications for each of the Awards listed below need to outline a nutrition project you would like to conduct among a community group. Background to the project, a description of how the project will be carried out and an outline budget need to be supplied. Applications should demonstrate an awareness of DH guidelines on nutrition and their practical implication, and indicate how patient knowledge and understanding of healthy eating are likely to be improved as a result of the project.

Application forms providing further details can be obtained from the National Dairy Council by completing and returning the attached form.

Finally, the NDC is holding the third in its series of annual nutrition conferences on 28th October. The topic will be nutrition and children. Programme details will be available shortly and can be obtained using the form overleaf.

We look forward to hearing from you.

Yours sincerely,
