MALTED BARLEY
WHEAT AND
MILK.

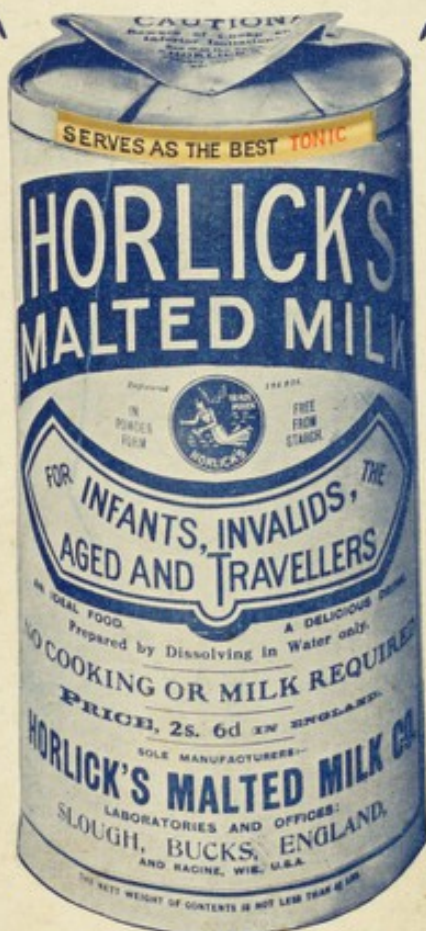

THE IDEAL FOOD FOR ALL AGES.

IN POWDER
AND TABLET
FORMS.

A PROPER diet is essential to all progress towards health, strength and development, and a food which will supply the maximum amount of nourishment with the smallest tax on digestion, will therefore appeal to all seeking physical fitness.

Horlick's Malted Milk contains the full nourishment of pure rich milk, and choice malted grain, manufactured under scientific supervision, and is ready for use by briskly stirring in water either hot or cold—requiring no cooking.

It is therefore available instantly whenever needed, and keeps indefinitely anywhere. A bottle in the home, or dressing room, or in the travelling kit, ensures at once a satisfying and refreshing food drink, which will prevent fatigue and increase mental and physical strength.

Horlick's Malted Milk will advantageously replace tea, coffee, cocoa, or chocolate as a table beverage, is a most acceptable morning drink, and taken hot just before retiring induces restful sleep.

Horlick's Malted Milk is particularly valuable to professional people upon whose nervous systems there are constant and unusual demands. Public Speakers, Singers, and those whose profession exceptionally taxes the vocal organs, find Horlick's Malted Milk in tablet form particularly useful, since these tablets supply nourishment and prevent fatigue, and at the same time lubricate the throat. They can be dissolved in the mouth from time to time as required when regular refreshment cannot be obtained.

Trial size of either Powder or Tablets, or both, are offered free by post on application to the Company.

Directions.—The slide shows the Natural Scale with the tones and semitones and the Old Notation names in the ring spaces at the sides. When "C" is the Key Note there are no sharps or flats. To find the *First sharp remove*:—Slide "Soh" of the Natural Scale to the *Black Ring* and No. 1 is seen. "G" becomes the Key Note and one sharp appears. The right side scale is now scale of *G major*. Slide now till "F" is the left hand Key Note and B \sharp appears; the left side scale now being scale of "F," and so on. When "D" appears as Key Note two sharps are shown, *i.e.*, F \sharp and C \sharp . The RELATION between the *Tonic Sol-fa* and *Old Notation* can be seen for all Removes and many other points illustrated. N.B.—In considering Keys F \sharp and C \sharp that C is really same as B \sharp and F as E \sharp , interval being a semitone, and in considering Keys G \flat and C \flat that B is really same as C \flat and E as F \flat , the interval being a semitone.

...economical package to purchase.
