"My Mamma!"

Lovingly, and somewhat banteringly, exclaims the little child of our new picture; and the depth of maternal affection conveyed by the answering look of the mother, awakens responsive sympathies, common to all mankind. Aside from all sentiment, however, we ask you to always keep a bottle of DR. D. JAYNE'S EXPECTORANT in your house. Why? Because in cases of a Sudden Cold, or a Severe Cough, nothing else so quickly and so certainly gives relief, or wards off more dangerous consequences. If suffering from Bronchitis, no other remedy has been found so effective in curing this disease. If troubled with Asthma and difficulty of breathing, the experience of hundreds of thousands of persons who have been relieved by this EXPECTORANT ought to cause you to rely upon it. If Croup or Whooping Cough should invade your family, what remedy so prompt, so efficient, so sure, or so generally used? If threatened with Consumption, or attacked by that dread disease, where can more certain relief be found, or a greater prospect of a cure secured, than by the use of this EXPECTORANT, in conjunction with DR. D. JAYNE'S ALTERATIVE? In short, the experience of over half a century's use, in millions of cases, has proven this EXPECTORANT to be the most useful of all Cough Remedies; and in confirmation you have only to ask your neighbors, for there is scarcely a city, town, or hamlet in the United States in which the EXPECTORANT has not been used, or in which many persons have not been relieved or cured by it.

HELP THE WEAK CHILD, by using DR. D. JAYNE'S TONIC VERMIFUGE, when its ailing and puny condition indicates that it is not gaining proper strength from its food; for this old-time remedy invigorates the stomach, and by increasing its power of assimilation, stimulates the natural functions of the body. If Worms are causing trouble, the TONIC VERMIFUGE certainly drives them from the body, and removes the nests from which they are propagated. For the Dyspepsia and Weak Digestion of adults, try this TONIC, and you will get rid of Nausea, Water-Brash, Sick Headache, Sour Stomach, Flatulency, Heartburn, etc., and remove the common cause of Low Spirits. It is a good Family Medicine, remedial in all cases of General Debility, helpful to all feeble and weakly women and children, and very serviceable to the young when attacked by Fever and Ague.
