IMPORTANT VEGETABLE PRODUCTION

PATRONIZED
BY
HIS MAJESTY

KING WILLIAM
THE
FOURTH.

Growing in height from 9 to 12 feet, and in circumference from 15 to 20

WATERLOO CAESAREAN

Evergreen

COW CABBAGE

OF ENGLISH GROWTH

Unequalled in affording the most interesting and desirable Results to the Farmer, Grazier, Manufacturer, and Families for culinary uses.

The following Gentlemen are a few only who have selected the Seed for cultivation this year.

T. W. COKE, Esq. the Father of the Agriculturists.

— DYMCK, Champion of England.

ROBERT LEEDS, Esq. Surrey.

THOMAS BACK, Esq. Wellesbro'.

JOSEPH COWEN, Esq. Bladenburn.

Sir WILLIAM FOLK, Norfolk.

R. PRESTON, Esq. Barrister, Lincoln's Inn

— ALLINGTON, Esq. Little Barford, near St. Neots.

EDWARD LINDSELL, Esq. Broon, near Biggleswade.

HENRY WALKER, Esq. Corn Exchange.

R. SUTTON, Esq. Royal Exchange.

— JESSEY, Esq. Hampton Court.

HENRY HILLS, Esq. Allebury.

HENRY HANLEY Esq. M. P. Lincolnshire.

— PERKINS, Esq. Proprietor of Islington Market.

WILLIAM SHIELD, Esq. Lincolnshire,

THOMAS HUDSON, Esq. York.

— HERN, Esq. Bury St. Edmunds

— WATKIN, Esq. Windsor.

And most of the Principal Graziers.

AGENT FOR THE WEST END CIRCULATION

Mr. J. Moss, No. 61, Quadrant, Regent Street, London.

WHERE A SPECIMEN OF THE CABBAGE IS TO BE SEEN.

This extraordinary species of Cabbage,

almost unknown in England till introduced by the persevering efforts of Mr. Fullard 3 years since, grows from NINE to TWELVE feet high, and from FIFTEEN to TWENTY feet in circumference. Five of these stupendous Cabbages, now raised to the greatest perfection in *quality* as well as *size*, have been repeatedly found, by proper management, an ample allowance of food for *One Hundred Sheep* or *Ten Cows* per day; and the nutrition thence supplied by this delicious Vegetable will (as experience has abundantly demonstrated) speedily produce the most surprising improvement in the *growth and utility* of every description of Cattle.

As an evidence of the beneficial tendency of this Cabbage, Mr. F. has great pleasure and satisfaction in saying, that Sheep fed upon it have been found to produce Wool, of the finest silken texture, *Twenty five inches long*,—a circumstance which cannot fail immediately to claim the utmost attention and admiration; as such, the cultivator of these Cabbages will not only realize pecuniary profit beyond any previous experience, but the Manufacturer will also obtain a superior material to any heretofore produced by the most profitable speculation, the general and extensive demand for which must exceed all present calculation.

May 14, 1836.—The LORD MAYOR, who purchased the seed, said, "*Mr. Fullard, I feel much obliged to you for the sight of this Great Production of Nature; this extraordinary Cabbage called the Waterloo Cæsarean Cow Cabbage, gives me a stimulant to promote the Agricultural Interest, and you are certainly deserving of every encouragement.*"

This magnificent production will be found a unique and ornamental novelty for the garden; by its growing throughout the winter, and Preserving a rich freshness, it must add much to its appearance.

Sold in Packets at 5s. 10s. and 20s. each.—The Public may depend upon this Seed being genuine, as all the Packages are made up by Mr. Fullard.

This Waterloo Cæsarean Cow Cabbage

Has been pronounced by the Father of the Agriculturists, *whom*, from his well-known experience, we are all bound to believe, to be the greatest wonder that ever appeared in the vegetable kingdom. It was shown to that very highly esteemed and truly respectable gentleman, T. W. COKE, Esq., Holkham Hall, Norfolk, in October last, when he immediately said, "*Mr. Fullard, you told me, three years ago, Agriculturists were only half-way advanced in improvement, this Cabbage makes me say I am bound to believe you. I do say it is the greatest wonder the earth ever produced.*" Mr. COKE subsequently introduced several *Dukes* and other *Noblemen*, to the number of Nine, to view this great production, all of whom expressed their astonishment, and engaged a part of the seed for use this year, (1836).

A part of this seed has been engaged by HIS MAJESTY, and forwarded to *Norfolk Farm, near Windsor*, to be planted this season; and the production is already likewise patronized by most of the ROYAL FAMILY.

The plant of this Seed, unlike any other vegetable produce for Cattle, *never fails*, either numerically or in quality.

These Cabbages, if designed for use in the Winter season, can, for convenience, as well as advantage to the grower, be then removed from the Fields, and will serve to make handsome serpentine walks or they will form a most excellent avenue for winter across a Field; or by setting them singly, will make a ground that has not a Tree in it, a Park for winter, and may be given to the stock in spring.

One Hundred Fleeces of Wool may be sent to Market, where only Twenty goes from the same land.—This extra quantity of Wool alone will answer the purpose of growers.
