VOLUNTEER MOBILE CORPS (OWNER DRIVERS)

Patriotic owners of private cars throughout the country have offered their services and their cars free to local authorities engaged in schemes of Air Raid Precautions. Such action has materially helped in providing the necessary transport required for Air Raid Precautions services in many towns and urban districts. This picture shows the drivers of some fifty cars running to their vehicles during a practice alarm at a well-known seaside resort. From their place of assembly, these cars were driven to various strategic points in the town, including the Fire Stations and Police Stations, whence their services were utilized as required, in accordance with a pre-arranged plan.
