# THIS IS NOT SAFER SEX!

**OK, condoms  
are an important  
part of safer sex but  
they aren't everything.**

If you are having sex there is a whole package of things you can do to make it safer and more enjoyable.

- *Be prepared – think about what you are willing to do before you get into a situation.*
- *Communicate – talk to your partner about what you want to do and what you don't want to do.*
- *Cut down on the number of people you sleep with.*
- *Try things other than bonking! Look at our Sex Menu for ideas or use your imagination!*
- *Use a condom properly – every time you have sex.*
