Cleaning Works

2x
Bleach

1. Flush twice with thin bleach.

2x
Water

2. Flush twice with cold water.

Don't squirt bleach or water
back into container.

Ensure that the needle and
syringe head are covered by the
bleach and water.

If no bleach use washing-up
liquid.

Don't share cookers or filters.

Get free clean needles from
needle exchanges. Dial 100 and
ask for Freephone Drug Problem.
