GONE AWAY?

More and more people are getting
Sexually Transmitted Diseases including HIV...

With many infections the symptoms can take a while to show,
so it's hard to know for sure if you or your partner are in the clear.

The best way to stay okay is to always protect yourself.
Condoms are the best barrier against infection and unwanted pregnancy.

If you have any sexual health worries,
help is available from sexual health clinics, your doctor or practice nurse.

NO WAY!
