# If You're Dabbling In Drugs... You Could Be Dabbling With Your Life.

Skin popping, on occasion, seems a lot safer than mainlining. Right? You ask yourself: What can happen? Well, a lot can happen. That's because there's a new game in town. It's called AIDS. So far there are no winners. If you share needles, you're at risk. All it takes is one exposure to the AIDS virus and you've just dabbled your life away.
