If You Cheat On Your Partner You Could Wind Up With More Than Just A Broken Heart.

NAEP 1984 P08

With AIDS around, cheating on your partner could cheat you both out of your lives. AIDS is deadly. Even one encounter could infect you with the AIDS virus. So what started out as a harmless flirtation could turn into a deadly moment of truth. That's why it's important to know your partner. Because a broken heart is bad, but not as bad as a broken life.

For more information about AIDS, call 1-800-342-AIDS.
