BROWN'S IRON BITTERS

*
CURES
MALARIA
DYSPEPSIA
& FEMALE
INFIRMITIES *

A. HOEN & CO. LITH. BALTIMORE.

THE BEST TONIC.

MALARIA.

THE alarming rapidity with which malaria has been spreading over the country has caused much talk and investigation. It is a malady which not even the most talented are able to fathom. Its cause is in most cases attributable to local surroundings, impure water and marshy ground, and appears in places noted for being unusually healthy. Probably this disease has so baffled the investigation of the medical community, and few diseases cause more misery. Malaria does not necessarily mean chills and fever, although these troubles sometimes accompany it, back ache, tired, weary feeling, lack of energy, aches of all kinds and all sort of spinal misery are the sure indications of malaria. The remedy has been quinine, and yet all who take this drug know its disagreeable effects, and are aware that it seldom if ever effects a permanent cure. What is wanted is a good health-giving medicine, which will strengthen and build up the system and permanently restore health.

Brown's Iron Bitters, manufactured by Brown Chemical Co., Baltimore, Md., is such a medicine, and is a sure antidote against malaria, poison, fever and ague and other intermittent fevers. It also cures without doubt Dyspepsia, Indigestion, Constipation, Liver and Kidney complaints, enriches the blood, tones the nerves, and is especially valuable as a health-giving and restoring medicine for diseases peculiar to ladies.

BROWN CHEMICAL CO., BALTIMORE, MD.

See that all Iron Bitters are made by Brown Chemical Co., Baltimore, and have crossed red lines and trade-mark on wrapper.

Beware of Imitations.
