Are you good in bed?

Good question. Thanks to AIDS, being in bed is a matter of life or death.

Do you know that unprotected sex not only puts you at risk from him, but all of his previous partners and all of their partners? Perhaps one of the tens of thousands of men and women in Canada infected with the virus that causes AIDS?

Do you know the risk is especially high for women? It's a lot easier for you to get infected with AIDS from a man than the other way around.

Here's how to be good in bed. First, if you've had unprotected sex, see your doctor for an AIDS test. It's easy and the test is confidential. Next, don't have unprotected sex again. Reduce the risk with a condom.

So, are you good in bed?

AD BY OGLIVY & MATHER WEST. PHOTOGRAPHY BY WEST 11TH. AS PART OF THE ALBERTA HIV/AIDS PREVENTION CAMPAIGNS FOR YOUNG ADULTS. FOR INFORMATION ON THE CAMPAIGNS CALL THE ALBERTA AIDS PROGRAM AT 403-427-0836. ABSTINENCE IS STILL AN OPTION.
