# DRESS CODE

FOR THE '90s

If you do say yes to sex, dress for the occasion. Because you don't always know who your partner was with before.

Use a latex condom. Because AIDS kills.

AIDS isn't something that can only happen to someone else. AIDS can happen to you.

If you have doubts, see your doctor. Get tested.

Know the new facts of life.  
Practise safer sex ... always.  
Use a condom ... the dress code for the '90s.

**AIDS**  
is for real
