# WANNA

AIDS is caused by a virus called HIV. • HIV is spread through sex with an HIV-infected person.

# HAVE

To protect yourself from HIV, don't have sex. • HIV is not spread by mosquitoes.

# THE TIME

Both men and women can spread HIV. • Sharing needles is high risk. • Anyone can get AIDS.

# OF YOUR

You can't tell by looking if a person has HIV. • If you do have sex, use condoms correctly.

# LIFE?

There is no cure for AIDS.

**START TODAY WITH THE RIGHT CHOICES.  
STAY HEALTHY, STAY AWAY FROM DRUGS AND GET THE FACTS ABOUT AIDS.**
