Dear Sir William & Lady Paton

Many view the world to day as a place where standards are being lowered and those high ideals of which we were once proud losing their values. Therefore it is hoped that you will be interested in the work of Animals' Vigilantes.

The items enclosed will reveal that our aim is at youth as we seek to educate them in the care and welfare of animals and to teach respect for all life. Whilst reading the literature which comes with this letter we would emphasise that we are not a militant organisation but seek by peaceful means to make for a better understanding of the animal life around us. In the last one hundred years there has been a loss of hundreds of species of wild life and in youth today we hope for a better world as they become the adults of tomorrow.

Founded in 1965 we are now twenty-two years of age and during the two past decades we have won the support of young people and adults in many countries and the Trustees intend that the message of compassion shall continue. We should like to make our slogan "United against cruelty to animals" a reality and encircle the world with right-thinking people. We look to the young for a better world and to adults for their support in our task.

Most realise that the young peoples' subscriptions are not enough to keep pace with the ever-increasing demands and this is why we appeal to you for help please. Any gift however small, will assist in our campaign to help all creatures great and small. Please read the enclosed literature and help us in our international work.

Yours sincerely

Jayne Bird
