BILE BEANS

A YOUNG LADY CURED OF
Headache, Indigestion, & Debility,
 BY
BILE BEANS FOR BILIOUSNESS.

AMID pretty rural pastures about ten miles from Melton Mowbray, and half the distance from Belvoir Castle, is Harby Bridge, where lives Miss Lizzie Starbuck, who has recently been cured of Headache, Debility, and Indigestion by Chas. Forde's BILE BEANS for BILIOUSNESS in a remarkable manner. A *Melton Mowbray News* reporter, who inquired

into the case, writes that the young lady looked such a picture of health that it was at first hard to believe the story of torture and then of triumph which was unfolded to him. "As a little child," said she, "I was never very strong. I grew too quickly; and up to quite recently endured much agony with headache and sickness. Last summer I went out cheese-making, but had indigestion so badly that it took all the life and energy out of me. I felt as though I could not work; and, although I struggled on until the end of the season, my condition grew more pitiable. Head and stomach pills I tried in vain. Still the pain of indigestion racked my whole frame. It interfered with my appetite; I slept very poorly; and I was far too weak to carry the buckets of water

as I am doing now. It was something more than the ordinary 'out of sorts' or rundown feeling. One day we saw an account of the wonderful properties of Chas. Forde's BILE BEANS, and sent for a few. They did me good, and I then bought a large box. Before I had been taking the course long I began to feel a marked change. The sickly feelings grew less, and there was less headache. Then these both vanished completely. Meanwhile I seemed to be pulling round in general health. Instead of being weak and low like I was before—poor in spirits, pale in looks, wasted and fatigued with the least effort—I began to feel quite strong again. Now I am not like the same person. I feel equal to any ordinary effort, and can carry those two buckets of water (pointing to two buckets standing near) easily; and one has to be pretty strong to do that. I can honestly say that it is to BILE BEANS that I owe all this. My Uncle (with whom Miss Starbuck lives) did not believe in patent medicines; but I gave him some of the Beans when he was taken ill, and they did him so much good that he is now perfectly convinced as to the justice of the claims of this medicine, at any rate."

"Yes," interposed the young lady's mother, "BILE BEANS have done her a world of good, and I can recommend them to anybody."

Mr. Starbuck also said he willingly gave BILE BEANS their due, adding "They're the best thing I have met with in my life."

Do You Easily Catch Cold ?

THE approach of winter in our Northern climate is always accompanied by an epidemic of colds, chills, influenza, rheumatism, &c., and the reason for this is not far to seek. The change of season from the warmth of the late summer to the icy chill of winter is not attended by a corresponding change in the human system; hence the hundred and one ailments so common at this time. To be in a state to throw off colds, chills, &c.—with their more serious consequences when contracted—the body should be in the very pink of condition. Now after the debilitating heat of summer, this condition can very rarely be attained without some assistance being given to the organs. What is required is some natural stimulant which will not overtax the organs so that when its use is discontinued they will be weaker than they were before, but which will assist them to do the additional work required of them, and at the same time strengthen and invigorate them. BILE BEANS for BILIOUSNESS fulfil all these requirements. Their composition is purely vegetable; their action on the stomach, liver, and kidneys is mild, and has the effect of so bracing the system that winter's cold and wet lose their terror and their power to injure. They bring about perfect circulation, thus curing the unpleasant feeling of cold feet and hands; and they stimulate the action and increase the energy.

SENT RHEUMATISM CLEAN AWAY.

Oswestry District Conservative Club.

To the BILE BEAN MANUFACTURING CO.,

Sirs,—I am very pleased to inform you Bile Beans have done me a lot of good. I have suffered badly with rheumatism in my feet, almost unable to walk for pain. I am very pleased to say that since taking your Bile Beans I am able to go about free from pain. They seem to have sent it clean away from me. I am recommending them to my friends who have seen me before and since I have taken your Bile Beans.

You can make what use you like of this, if any good to you.

I remain, Yours truly,

(Signed) JOHN GRIFFITHS, Steward

Indigestion and the Heart.

THE following appeared in the Health Notes of *The Northern Daily Telegraph*, and will no doubt explain to many the cause of symptoms which they may have felt, and also point out the remedy:—"Many persons on going to bed and lying on the left side experience a very troublesome and distressing sensation, which perhaps wakens them from a slight doze, or even a profound sleep. They feel as though the heart had stopped, and then as though it was fluttering within them. They often come to the conclusion that they are suffering from heart disease, and become very much alarmed and both depressed and anxious, when, in point of fact, they are merely suffering from flatulent dyspepsia, which distends the stomach and causes it to press upon the apex of the heart, interfering with the regularity of the beat, and producing palpitation. Persons suffering in this way can be cured by simple treatment. A dose of BILE BEANS for BILIOUSNESS taken after the last meal before retiring will be found to have a most beneficial effect. Their action is directly upon the liver, which they regulate, and thus bring about perfect digestion. The symptoms denoted above will be then found to speedily disappear. Probably two out of every three persons who think they have heart disease are really free from this serious disorder. The whole trouble being caused by defective digestion.

BILE BEANS

B

ILE BEANS FOR BILIOUSNESS

have proved themselves in all parts of the world to be the greatest specific for all Liver and Digestive Ailments. Bile Beans are not a carelessly prepared nostrum, but on the contrary they are the result of careful study and investigation on the part of Mr. Charles Forde, a celebrated Chemist and Scientist. Mr. Forde discovered a vegetable substance that has the peculiar properties of acting in the process of digestion in the same way as nature's own animal bile. This vegetable he succeeded in compounding with eight other ingredients to facilitate its working, the whole being called "BILE BEANS." Bile Beans act in a natural and gentle manner, without purging or in any way distressing the patient. By their use the old method of curing digestive ailments by means of harmful drugs such as pepsin, bismuth, mercury, etc., is completely done away with. Bile Beans have been termed "a medicine for the people at a popular price," and this title is fully maintained when it is considered that over 300,000 doses are taken every

night throughout the world. They have been found unequalled in curing Headache, Influenza, Costiveness, Piles, Liver Troubles, Bad Breath, Rheumatism, Liver Chill, Colds, Indigestion, Dizziness, Buzzing in the Head, Fulness after Eating, Constipation, Lack of ambition, Debility, Anæmia, Female Ailments, Pimples, and a host of other ailments that owe their origin to defective bile flow, assimilation, and digestion. They will also be of great service in Nervous Disorders, Loss of Appetite, Shortness of Breath, Blotches on the Skin, Scrofula, Insomnia, and Troubled Sleep. They act quickly in restoring females to health, and for a general aperient and tonic remedy they are unequalled. Bile Beans are obtainable of all Chemists, or Post Free, if this paper is mentioned, from THE BILE BEAN MANUFACTURING CO., 119 & 120, London Wall, London, E.C., on receipt of price 1/1½, and 2/9 (large box, contains three times small size) three large boxes 7/6, or six for 14/-
