# A quoi ressemble une personne qui a le SIDA?

Le SIDA ou la Rougeole?

Le SIDA ou la Malnutrition?

Le SIDA ou la Typhoïde?

Le SIDA ou la Tuberculose?

Le SIDA ou l'Alcoolisme?

Le SIDA ou le Cancer?

**Le SIDA peut ressembler à beaucoup d'autres maladies. Ne vous trompez pas. Ne faites pas courir des bruits. Allez voir un agent de santé qualifié pour faire des tests si vous pensez que vous avez le SIDA ou que quelqu'un que vous connaissez a peut-être le SIDA.**
