**T**HE Purging Balls contain in a small Com-  
pass all the essential Qualities of a Stomachick  
Purge. They do not cloy a Horse's Stomach as most  
other Purges do, but without the least Gripping scour a  
Horse well, and make him stale plentifully. Horses,  
after being badly or irregularly fed, or coming from  
Grass into a stable, are apt, on change of Diet, to have  
Humours flyi. g. about them; which settling on the  
Lungs, Legs, or Blood Vessels, cause either an obsti-  
nate Cough, Grease, or Farcy, which might be pre-  
vented by a few Doses of Physick, and therefore highly  
necessary for Horses newly purchased. Price 2s. each  
Parcel, containing three Doses.

Duretick Balls, which effectually cure the Grease in  
Horses by a urinary Discharge. 2s. per Pound.

CAL COLDS in Horses, which may be given without  
Trouble, as they will take it in their Food. 2s. a Parcel.

King hath seized all her possessions, and left her only 12,000 livres per annum.

"The following Ladies are exiled, viz. the Duchesses de Langeac and Mazarine; the Marchionesses de Mirepoix, and the Countess de Valentinois.

"Madame du Barré is extremely ill. It is even reported that she is dead."

Several of the English Nobility and Gentry propose to be present at the coronation of the French King and Queen.

At some corn mills on the Vistula, the Millers refusing to grind unless the new duty was taken off, the Prussian Officers pressed them for soldiers, saying, if they did not work they could not have an honest way of living.

Sir Geo. Y—ng, in the late debate on the linen manufacture bill, made use of the following assertions:—"I assert that there is not a manufacture in this kingdom so complete in all its parts, in such good order, and so little declined as the linen manufacture of Scotland and Ireland; the great staple of the kingdom, the woollen manufacture, hath reason to envy it.
