For INK-SPOTS, IRON-MOLDS, STAINS, &c.
The True Essential SALT of LEMONS.

THIS SALT is infinitely preferable to any other Thing whatever for discharging of Iron-moulds, Ink-spots, red Wine, and Stains of every Kind out of Lace, Muslin, Lawn, Cambrick, and Linen immediately, and without any Trouble, whitening them to Admiration if grown yellow, and rendering them as beautiful as when quite new. It is also excellent for all the Purposes which the Lemon itself is used for, being nothing more than the pure acid Part of that Fruit, separated from the Pulp and grosser Substance. It makes the most excellent Punch, gives the true Flavour of the finest Lemon to Jellies and Sauces, and has the Advantage over the Fruit itself, in being always ready, and never spoiling in keeping.

N. B. As some Persons may apprehend that this, like many other Things used for taking out of Iron-moulds, Stains, &c. may rot the Linen, the Proprietor begs Leave to mention, that he will warrant that his SALT of LEMONS will not do the least Injury even to the very finest Laces.
