Pombinha sem AIDS

Pombinha com AIDS

Ou será a pombinha da esquerda com AIDS e a pombinha da direita sem AIDS? A gente não sabe. E na maioria das vezes, nem a própria pombinha. A pessoa pode ser portadora do vírus e não apresentar sintomas. Nas suas relações sexuais, use camisinha. Desconfie sempre. Ou será que você consegue distinguir uma pombinha sem AIDS?

Elimine suas dúvidas. Consulte a gente.
